Using Communication Theory Vol 1 An Introduction To Planned Communication:

Using Communication Theory Sven Windahl, Benno Signitzer, Jean T Olson, 2008-11-18 Using Communication Theory was a rarity in bridging the gap between ideas and practice It was itself a model of good communication and in its second revised edition it is still a most reliable and accessible guide to the lessons that communication theory and research offer to practitioners especially in planning for change Denis McQuail Professor Emeritus University of Amsterdam Using Communication Theory has become a classic in the education of communication It is the comprehensive and self evident source for theories and models forming the base for the study of professions requiring communication planning Lars ke Larsson rebro University What does theory have to do with the practice of communication Communication planning is used daily by thousands of people public relations practitioners technical writers information campaigners advertising professionals organization consultants educators health communicators and more Without a solid understanding of communication theory practitioners have difficulty getting their messages heard The second edition of this best selling textbook has been updated with the student firmly in mind With new learning features that directly engage with the practical side of theory students will Practice what they learn with activities and exercises Apply their own experiences to theory through prompts to reflection Consolidate their learning with highlighted definitions and lists of key terms Take it further with boxed excerpts from classic texts Showing how theories relate directly to the planning and experience of effective communication Using Communication Theory 2nd Edition provides indispensable insights into the practical nature of communication theory In today s landscape of communication overload this book remains an essential authoritative guide for both students and practitioners *Using Communication Theory: an Introduction to Planned Communication* Sven

Windahl, Signitzer B, 1992 **Establishing a Dialogue on Risks from Electromagnetic Fields** World Health Organization. Radiation and Environmental Health, World Health Organization, 2002-12-31 Public concern over possible health effects from electromagnetic fields EMF has led to the preparation of this handbook Potential risks of EMF exposure from facilities such as power lines or mobile phone base stations present a difficult set of challenges for decision makers The challenges include determining if there is a hazard from EMF exposure and what the potential health impact is Responding to these challenges requires the involvement of individuals or organizations with the right set of competencies combining relevant scientific expertise strong communication skills and good judgement in the management and regulatory areas This handbook is intended to support decision makers faced with a combination of public controversy scientific uncertainty and the need to operate existing facilities and or the requirement to site new facilities appropriately Its goal is to improve the decision making process by reducing misunderstandings and improving trust through better dialogue The guide may assist the general public when interacting with government agencies that regulate environmental health and with companies whose facilities may be sources of concern References and suggestions for further reading are included Stories of Changes from

Open Diaries: The Joint Effects of Radio Messaging and Group Discussions to Fight Child Marriage Getnet Eshetu,2014-09-01

Many studies have underlined the high prevalence of child marriage in Ethiopia particularly in the Amhara region and their devastating effects on the mental and physical health of the girls involved This qualitative research aims to investigate the effectiveness of multimedia messaging including radio and print messaging face to face group discussions as well as interactions with a radio station in altering people s perception of child marriage By analysing reflection statements in group diaries the study identifies changes in the Knowledge Attitude and Practices KAPs concerning child marriage of a multimedia audience in three districts of the North Gondar Zone in the Amhara region The study contains a comprehensive literature review comprising several findings regarding the magnitude of child marriage practices Using the hybrid qualitative method of thematic analysis it highlights important features and drawbacks of potential approaches to mobilising the community against child marriage Moreover a detailed description of multimedia intervention procedures is included which can serve as a guideline for media practitioners and social development initiatives
