Victims In The Criminal Justice System:

Victims in the Criminal Justice System Joanna Shapland, Jon Willmore, Peter Duff, 1985 **Victims in the Criminal Justice System** Jo-Anne M. Wemmers, 1996 **Criminal Victims and the Criminal Justice System**, 1986 **Third Parties** Leslie Sebba, 1996

Recent years have seen a heightened awareness of the plight of victims of crime and of their neglect by the traditional criminal justice system with its bureaucratic and institutional processes. This concern for the victim has been shared by diverse groups including humanists, conservative law and order politicians, feminists and grassroots community advocates. This combination of forces has stimulated a mass of legislative reform at both the federal and state levels. Many jurisdictions have adopted a Bill of Rights for the victim; public funds have been established to compensate victims; courts have been enjoined to order offenders to make restitution; welfare agencies have developed programs to provide victims with assistance and courts are inviting victims to testify at the sentencing hearings of their offenders. These reforms and proposals have been accompanied by a growing body of literature that discusses the needs of victims and analyzes the merits and drawbacks of particular reforms, some of which have been evaluated empirically. What has been lacking until now is an integrated overview that looks at their philosophical underpinnings and considers how these different and sometimes conflicting proposals are conceptually related to one another and to other prevailing criminal justice doctrines and ideologies. Leslie Sebba fills this gap in *Third Parties*. BOOK JACKET Title Summary field provided by Blackwell North America Inc. All Rights Reserved

Focusing on key issues, themes and concepts within victimology, this edited collection provides an accessible and comprehensive critical analysis of crucial areas within victimisation. The main theories are related to and integrated with empirical research in an engaging style. Dr Anette Ballinger Keele University. This book achieves the rare feat of helping its readers without patronising them. The aids to the reader: tables, boxes, glossaries, questions and suggestions for further reading will prove genuinely helpful to students and their teachers, but they appear within a text that is theoretically informed as well as comprehensive and up to date in its coverage. It deserves to be widely read and used in the teaching of criminology, victimology and criminal justice. Professor David Smith, University of Lancaster, UK. Organized around the intersecting social divisions of class, race, age and gender, the book provides an engaging and authoritative overview of the nature of victimisation in society. In addition to a review of the major theoretical developments in relation to understanding aspects of victimization in society, individual chapters explore the political and social context of victimisation and the historical, comparative and contemporary research and scholarly work on it. Each chapter includes the

Price, 2004 The book looks at the underlying social economic racial and cultural conditions of society and how they impact on women throughout society and the criminal justice system Publisher's description Victims of the System Robert Elias, 2017-07-28 This important new book on criminology is a major attempt to evaluate actual victim compensation programs as well as their political and economic contexts through the eyes of the victims themselves Elias traces the experiences of violent crime victims throughout the entire criminal justice process comparing New York's and New Jersey's victim compensation programs He shows how programs differ when compensation is viewed essentially as welfare and when it is viewed as a right The study uses extensive interviews with officials and with violent crime victims The study indicates victim compensation programs largely fail to achieve their stated goals of improving attitudes toward the criminal justice system and the government The programs produce poor attitudes toward government and criminal justice What Works for Crime Victims Aline Pedra Jorge, 2021-01-26 After the Second World War the role of the victim in criminal conflict became an object of interest for academics But it was only in the 1960s that the importance of providing protection and assistance to crime victims was highlighted in particular by the victims movement which inaugurated a new era of criminal justice in systems throughout the world Moving beyond just the role of controlling crime and punishing the offender the criminal justice system also began to contribute to the victims rehabilitation and to help the victim to move on from the event psychologically and emotionally Although some criminological research was conducted on this topic the effect that the criminal justice system and victim support services have on the well being of crime victims is still uncertain The current study sought to understand the healing process of victims of crime the potential consequences of their participation on the criminal justice system and the support of victim centers Moreover it aimed to find out whether the existence of a Victim Support Act would change the treatment that the victim receives in the criminal justice system Thus this research was conducted based in two countries Switzerland and Brazil where the outcome of the victims movement on the criminal justice system was different as was the participation of the victim in the criminal justice system and the government's provision of support In order to conduct this research the qualitative method was employed which is the most efficient to gather sensitive information Interviews with crime victims were the main source of information Hearing observation and document research were used as complementary sources The results of this research show that victims who have contact with the criminal justice system and victim services are not more likely to recover than those who had no contact This is to say the support offered has no major effects the influence of the criminal justice system and the victim support services in the emotional well being of crime victims is rather neutral However considering that the sample is not

representative findings are not expected to be generalized. Instead, findings may give insight to practitioners or to future criminal justice policy makers suggesting what may work to improve the emotional well-being of crime victims as well as suggesting further studies.

Victimology and Victim Assistance Yoshiko Takahashi, Chadley James, 2018-11-14. *Victimology and Victim Assistance* offers insights into the criminal justice system from the perspective of often overlooked participants: victims. Delving into victim involvement in the criminal justice system, the impact of crime on victims, and new directions in victimology and victim assistance, authors Yoshiko Takahashi and Chadley James provide crucial insights and practical applications into the field of victim assistance. With an emphasis on advocacy, intervention, and restoration, this book examines real issues and barriers in the criminal justice system for victims and offers a way forward for future criminal justice or other human service professionals.

Victims, Crime, and Social Control Eduard A. Ziegenhagen, 1977. This book examines the implications of the victim's role in contemporary society, emphasizing their role in the social control of criminals. It provides an overview of developments in the concept of victim, the lack of agreement among legal scholars, social scientists, and psychiatrists as to the nature of the victim, and discusses the strong impetus of criminologists to narrow the definition of victim, linking it to crime and criminals. This linkage has given victims an ongoing place in the process of social control. Victims have a role in the trial and prosecution of offenders but as a particular kind of witness whose personal needs are subordinate to the needs of the criminal process. The new availability of public programs for victims are discussed but in the context of how these programs have been designed as much as to control criminals as to meet the needs of victims.

Hearing the Victim Anthony Bottoms, Julian Roberts, 2010-03-01. In recent years, far more attention has been paid to victims of crime, both in terms of awareness of the effect of crime upon their lives and in changes that have been made to the criminal justice system to improve their rights and treatment. This process seems set to continue with legislative plans announced to rebalance the criminal justice system in favour of the victim. This latest book in the Cambridge Criminal Justice Series brings together leading authorities in the field to review the role of the victim in the criminal justice system in the context of these developments.
