[How Power Works in Schools and Why It Matters for Maximizing Students' Learning](#) Jacob W. Neumann, 2024-02-02. People typically misunderstand how power works in schools. Common thinking says that things like high stakes testing, school reform efforts, and political mandates exert the most power on schools. The reality, however, is that power comes from everywhere. It isn't a thing that only certain people possess, nor does it operate linearly as in simple actions and reactions. Instead, power acts more like a web: if you exert power in one part of a school, the effects often spread across the rest of it. The usual emphasis on big, easy-to-see influences causes schools to focus on the wrong concerns, the big public ones instead of the ones which make the most impact, the small daily ones. This book examines everyday phenomena inside schools to reveal the complexity and nuance of power and makes practical suggestions for how schools can manage power more effectively to maximize students' learning.

[Quicklet on Robert Greene's The 48 Laws of Power \(CliffNotes-like Book Summary and Analysis\)](#) Joseph Taglieri, 2012-07-30. ABOUT THE BOOK: Whether you seek to gain, observe, or protect yourself from domination by the forces of power in the world, Robert Greene's comprehensive tome on this intriguing subject is in many ways a groundbreaking work of literature. The 48 Laws of Power synthesizes the thoughts of a host of history's most influential thinkers, including Machiavelli, Sun Tzu, Carl von Clausewitz, and others. Not only is it rich in the history of power, politics, and warfare spanning three millennia, the book has real-life relevance to those contending with the affect on our lives in modern times. Greene's 48 laws demonstrate how qualities such as prudence, cunning, stealth, and subtlety, and a complete lack of mercy or compassion for one's enemies come into play with humanity's power dynamic. It's apparent that those who feel powerless in today's globalized economy, driven by the politics of big money capitalism, are a target audience of this book. The preface begins: "The feeling of having no power over people and events is generally unbearable to us when we feel helpless, we feel miserable. Very much like the social and political pressures contained within an old royal court, a duplicitous game of non-overt power moves is the key to success in the current power paradigm."
