Whatever The Reasons:

Protocols of Proceedings of the International Marine Conference Held in Washington, D.C. ... October 16 to December 31, 1889, 1890 *A Treatise Explanatory of a New System of Naval, Military and Political Telegraphic Communication of General Application* John Macdonald, 1817 *Nietzsche and Contemporary Ethics* Simon Robertson, 2020 This book offers a sustained critical assessment of Nietzsche's ethical thought and its significance for contemporary moral philosophy. Robertson develops an original but critical reading of Nietzsche's ethics and uses it to address a range of longstanding issues to do with morality, moral psychology, value and the good life. *The Oxford Handbook of Secularism* Phil Zuckerman, John R. Shook, 2017 The Oxford Handbook of Secularism offers a wide ranging examination of secularism on a global scale bringing together an international collection of views from prominent experts in a variety of fields. This volume reflects the impressive level of academic attention now given to secularism across the humanities, social sciences, law and public policy and international relations. Long reigning theories about the pace of secularization and ideal church-state relations are here scrutinized by a new generation of scholars studying secularism with new questions, better data and fresh perspectives.

Morality and the Nature of Law Kenneth Einar Himma, 2019-03-07 *Morality and the Nature of Law* explores the conceptual relationship between morality and the criteria that determine what counts as law in a given society—the criteria of legal validity. Is it necessary for a legal system to include moral criteria of legal validity? Is it even possible for a legal system to have moral criteria of legal validity? The book considers the views of natural law theorists ranging from Blackstone to Dworkin and rejects them, arguing that it is not conceptually necessary that the criteria of legal validity include moral norms. Further, it rejects the exclusive positivist view, arguing instead that it is conceptually possible for the criteria of validity to include moral norms. In the process of considering such questions, this book considers Raz's views concerning the nature of authority and Shapiro's views about the guidance function of law, which have been thought to repudiate the conceptual possibility of moral criteria of legal validity. The book then articulates a thought experiment that shows that it is possible for a legal system to have such criteria and concludes with a chapter that argues that any legal system like that of the United States, which affords final authority over the content of the law to judges who are fallible with respect to the requirements of morality, is a legal system with purely source-based criteria of validity. **Graphic Showbiz** Nanabanyin Dadson, 2014-04-24 *When Life Shows Up* Dr. Charlie B. Mayson, 2010-11-12 *When Life Shows Up* is a book about how when you least expect it, events happen in your life that are out of your control. How do you deal with these unforeseen tragedies or occurrences? Do you just pimp God and say a foxhole prayer, please God, get me out of this? Or do you prepare yourself for the inevitable and when life does show up, you are ready mentally, physically, and spiritually? This book continues where his book *Behind the Glass* left off: the saga of Dr. Mayson's false arrest, unfair trial, and conviction. It also outlines seven spiritual disciplines that will prepare you for anything that life can throw at you. It is essential for Christians, professionals,
