Transforming Literacy: Changing Lives Through Reading and Writing Robert P. Waxler, Maureen P. Hall, 2011-05-11 The book is interdisciplinary in focus and centers on enlarging teachers understanding of how reading and writing can change lives and how the language arts can contribute significantly to and change educational processes in the twenty first century Implicit in its argument is that although the emphasis on science and math is crucial to education in the digital age it remains vitally important to keep reading and writing language and story at the heart of the educational process This is particularly true in a democratic society because shaping stories through human language can enhance the quality of our lives and teach us something important about what it means to be human and vulnerable In this sense stories allow for self reflection and an increased opportunity to enhance and understand emotional intelligence and human community

Talking through Reading and Writing Daniel Rose, Christine Walsh, 2020-11-11 In this book you will read many examples of rich literacy conversations between a teacher and his 8th grade students that never would have occurred face to face in the classroom These conversations take place online when 8th graders write to their teacher about the books they re interested in reading and choosing to read independently Students write about what happens when they read or don t read how they feel about reading how they re connecting with characters and ideas why they don t have enough time to read and what their reading goals are And their teacher writes back to them Every week After each conversation you will read some meta talk that shines a light on what the conversation has taught us about this language learner and how this data is informing our beliefs and practices Embedded within the chapters are suggested resources articles book recommendations links websites blogs etc you can follow should you want to read more in that chapter What these students reveal about their own literacy development their successes their challenges their lives and how their teacher nudges them along socially emotionally and academically teach us the value and power of one practical authentic literacy tool the Reading Conversation Journal
