Environmental Design Research Wolfgang F. E. Preiser,2016-05-20 First published in 1973 this two volume set summarises and structures the contributions by researchers at the Fourth International EDRA Conference held in April 1973 The first volume focuses on the proceedings of the paper sessions It summarises and criticises 43 selected paper submissions which communicate contemporary research findings It also reviews the discussions between authors panellists and the session participants This book will be of interest to students of architecture and design *Standing Room Only* Maria Gould,1998 *The Ultimate Resource* Julian Lincoln Simon,2023-11-14 A lively answer to those who sound alarms about population growth and resource use The Ultimate Resource challenges conventional beliefs about the scarcity of energy and natural resources the pollution of the environment and the perils of overpopulation for our standard of living In this provocative book Julian Lincoln Simon argues that natural resources are not finite in any meaningful way and that using such resources now will not slow the rate of future economic growth In the short run all resources are limited A greater use of any resource means pressure on its supply and hence an increased price In the long run however history shows that human creativity overcomes natural obstacles to economic growth and leads to a lower cost and price than before The ultimate resource Simon contends is the human imagination coupled to the human spirit This timely book will fundamentally change how you think about a host of issues from immigration and human fertility to forecasts of population change and the use of taxpayer dollars for population control The Ultimate Resource demonstrates that the primary constraint on our national and world economic growth is our capacity for the creation of new ideas The more people who can be trained to help solve the problems that confront us the faster we might remove the obstacles and the greater the economic inheritance we can bequeath to our descendants **Statistical Report** Boston Public Library,1920 **Scribner's Magazine** ,1889
