Earth Under Fire Paul A. LaViolette,2005-10-25 An investigation of the connection between ancient world catastrophe myths and modern scientific evidence of a galactic destruction cycle Provides scientific evidence of past Earth wide catastrophes and their galactic superwave origins Decodes the ancient message encrypted in the zodiac constellations and symbolism of the Sphinx Describes how explosions of our Galaxy s core pose a threat to humanity in the future Many ancient myths from around the world tell of catastrophic destruction by fire and flood These ubiquitous legends are so extreme that they are often dismissed as imaginative exaggerations In *Earth Under Fire* Paul LaViolette connects these myths to recent scientific findings in astronomy geology and archaeology to reconstruct the details of prehistoric global disasters and to explain how similar tragedies could recur in the near future Compelled by his decryption of an ancient warning hidden in zodiac constellation lore LaViolette worked with information from many scientific sources including astronomical observations polar ice core measurements and other geological data to confirm that our Galaxy s core exploded near the end of the last ice age This explosion unleashed a barrage of cosmic rays and enveloped the solar system in a dense nebula which led to periods of persistent darkness frigid cold severe solar storms searing heat and mountainous floods that plagued mankind for many generations Linking his scientific findings to details preserved in the myths and monuments of ancient civilizations he demonstrates how past civilizations accurately recorded the causes of these cataclysmic events knowledge of which may be crucial for the human race to survive the next catastrophic superwave cycle This information reveals the intelligence and ingenuity of our ancestors who when faced with extinction found the means to warn us that the apocalypse that destroyed them could occur once again
