

that they can take time to allow ideas to "incubate", all in the context of a "writing community" in which all aspects of writing are talked about and practised.

There is also, in the third section of the book, a paper by Barry Kroll and Chris Anson on "Analysing Structure in Children's Fictional Narratives". It is claimed that such analysis is "one method among several for describing the kinds of choices writers make in constructing texts". This may at last be a useful function for this activity.

I have found the book helpful in confirming some of my own evolving views about writing — especially that the crucial need is to find ways of leaving the child with both motivation to write and control over what he or she is doing — and in providing some descriptions of practical steps for teachers. One of its advantages is that it makes the case in various ways for the centrality of imagination, not only to writing but to growth as a human being. When I remark that £15 makes an expensive collection of research papers, it is more a comment upon the economics of publishing for a small market than on the quality of the contents of the book.

## USING MICROCOMPUTERS IN SCHOOLS

Colin Terry (editor) (Croom Helm, 1984), pp. 181, £12.95.

### COLIN MACLEAN

---

Colin Terry has compiled a stimulating collection of 12 articles from both American and British authors which provide a broad view of current issues and attitudes relating to the uses of microcomputers in schools. The beliefs of the authors vary considerably and these are expressed with vigour and occasional intolerance. A common theme in almost every contribution is the desire for pupils to be active users of computer technology rather than mere passive observers. The potential of microcomputers as teaching and learning aids is illustrated by a number of thought-provoking examples, although I have not yet been convinced by the suggestion that writing skills could be developed by using a word processor with the monitor turned off!

While there are chapters dealing with most of the main categories of classroom application, there is little reference to the use of computer-aided assessment, profiling and reporting. It would have been interesting if a consideration of their impact on pupils' learning had been included.

The target audience is defined as "all those involved with the education of children". The width of this audience is reflected in the varying levels of awareness assumed by the authors, and readers may find that some of the authors assume either too much or too little previous knowledge.

In his introduction, Colin Terry identifies the need for the development of high-quality software and the provision of extensive school-based in-service training. Surprisingly, he recommends that purchasing decisions are based solely on the current availability of equipment and on the proposed applications rather than on projected future developments.

This approach is strongly opposed by his first contributor, Alfred Bork,

## Using Microcomputers In Schools:

**Using Microcomputers in Schools** Colin Terry, 1984-01-01      Microcomputers in Schools, 1984-85 John F. Hood, 1985  
This report of Market Data Retrieval's second comprehensive survey of microcomputers and their use in grades K-12 presents information for the 1984-85 year for public, private, and Catholic schools in the United States. The survey findings are summarized in a brief introduction and detailed data are presented in the 37 tables and 9 maps that accompany the narrative report. Areas covered include microcomputer use by school type, micro-intensity by grade level and type of school, brand distribution, and growth trends. Findings indicate that 1) U.S. schools are now using 630,000 microcomputers, a 75% increase over the 1983-84 school year; 2) public school use of micros (85.1%) still exceeds private (46.4%) and Catholic school (63.4%) use; 3) senior high schools still lead the way with 94.6% using microcomputers, but junior high schools are now at 93.1% and elementary schools at 82.2%; 4) 94.2% of U.S. public school districts now use microcomputers for instruction, an increase of 86.1% over last year and 41.7% over 4 years ago; 5) Apple computer remains the most common microcomputer brand with a 50.9% share of the market; 6) Radio Shack is second with a 19.7% share and Commodore is third with 15.2%; 7) IBM had the fastest growth rate, moving to a 3.5% share of the market; 8) while the number of children sharing a computer has been reduced in both wealthy and poor schools, 54 versus 73.3% wealthy schools are making improvements at a faster pace. State rankings, state profiles, and survey methodology and definitions are appended. JB

Microcomputers in Schools, 1983-84 John Pepe, 1984      **Using Microcomputers in Schools** James E. Higgins, William J. Linville, 1984. Includes information concerning the use of microcomputers in the public schools for instructional and administrative purposes. Chapters discuss the present condition, classroom uses for computers, the needs of teachers, and software selection. Includes software directory.

Improving Instruction with Microcomputers John H. Tashner, 1984      Microcomputers in the Schools James L. Thomas, 1981      *Resources in Education*, 1990      Microcomputers in Education Katherine Clay, 1982. Designed to put educators in touch with the literature, people, and resources that will keep them informed of the current and future state of the art in computer education. This guide provides citations from 1976 through March 1982, compiled from computer searches of ERIC Magazine Index and Newspaper Index and from manual searches of Education Index, Microcomputer Index, and the library and information files of the San Mateo Educational Resources Center. Each section begins with a brief introduction. Within each section, citations are arranged by document format: journal and newspaper articles, microfiche documents, and books and reports. A list of acronyms is included. Individual chapters focus on the following topics: futures, trends, computer literacy, philosophy, classroom applications, management applications, selection, evaluation, criteria, teacher, administrator, education research, studies, home computers, and references/resources. An appendix lists additional information sources, and author and subject indexes are provided. LMM

**Microcomputers in Schools** Commonwealth Secretariat, London (England), 1991. This report is about information technology in the classroom and is designed to provide information to

anyone who might be involved in the planning and implementation of a national program for the introduction of computers into schools The first of two sections of the report examines the background against which policy decisions can be made outlining the kinds of educational activities that can be supported by computers and some of the reasons normally given for introducing information technology into education The second section considers the kind of support structures that will facilitate the implementation of a national computer education project and examines the main cost items involved in such an implementation It is noted that the experience of educators at a pan Commonwealth meeting held in Edmonton Alberta Canada in May 1986 was particularly helpful in writing this report and it is their point of view that supports the formation of policy on the use of microcomputers in education in developing Commonwealth countries This paper reflects experience brought to the meeting from Barbados Great Britain Canada Cyprus India Kenya Singapore Sri Lanka and Trinidad and Tobago DB

**Microcomputers in Early Childhood Education** John T. Pardeck, John W. Murphy, 2019-02-04 Originally published in 1989 this book differed from others on the topic of microcomputers and education at the time in that it focuses on the influence that microcomputer technology has on children in their early years specially pre school and elementary ages Microcomputers have the capacity to do great harm as well as good and a full explanation of the technical and philosophical issues involved will be of interest to a number of disciplines Other topics explored are the potential uses of microcomputer technology in early childhood education and current research and theory building on microcomputers and early education This book should be read by teachers sociologists psychologists and researchers in education

Using Microcomputers in the Primary School Peter J. Wayth, 1983

*Using Microcomputers in School Administration* Eugene T. Connors, Thomas C. Valesky, 1986 This fastback outlines the steps to take in computerizing school administration After an introduction that lists the potential benefits of microcomputers in administrative offices the booklet begins by delineating a three step process for establishing an administrative computer system 1 creating a district level committee of administrators counselors librarians special education teachers at least one computer expert and other end users to identify school administrative functions best suited for computerization 2 to locate appropriate computer software to accomplish the administrative tasks that have been identified and 3 to select the hardware that will run the software that has been chosen The second chapter selecting software discusses stand alone versus integrated programs disk operating systems word processing database management spreadsheets accounting data analysis and graphics and special applications The third chapter selecting hardware discusses 8 bit machines 16 bit machines computer power peripheral devices and vendors The final chapter addresses the problem of getting started and discusses consultants establishing priorities staff training and the logistics of transferring to a computerized system TE

### **Using Microcomputers In Schools Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Using Microcomputers In Schools has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Using Microcomputers In Schools has opened up a world of possibilities. Downloading Using Microcomputers In Schools provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Using Microcomputers In Schools has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Using Microcomputers In Schools. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Using Microcomputers In Schools. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Using Microcomputers In Schools, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Using Microcomputers In Schools has transformed the way we access information. With the convenience, cost-effectiveness, and

accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About Using Microcomputers In Schools Books**

**What is a Using Microcomputers In Schools PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Using Microcomputers In Schools PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Using Microcomputers In Schools PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Using Microcomputers In Schools PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Using Microcomputers In Schools PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
