War Broadcasts:

Peter von Zahn's Cold War Broadcasts to West Germany Eli Nathans, 2017-08-08 This book examines the pioneering radio broadcasts and television documentaries about the United States made in the 1950s by the influential West German journalist Peter von Zahn Part intellectual biography part analysis of significant debates in West Germany part study of an intensive encounter with the United States the book helps explain the transformation of postwar West Germany As a soldier in the Wehrmacht in World War II Zahn held the militantly elitist views typical of young men in Germany s educated middle class He reconsidered these positions in his postwar broadcasts At the same time he coldly assessed the capacity of the United States to win the Cold War His broadcasts examined McCarthyism the African American civil rights movement and numerous aspects of American culture and politics Zahn s broadcasts were one important voice in West German debates about the defects and virtues of modern democratic societies and especially of the United States debates whose intensity reflected recent German experiences with the failure of the Weimar Republic and with Nazism Zahn s analyses of the United States remain startlingly relevant today Radio Wars Linda Risso, 2017-10-02 During the Cold War radio broadcasting played an important role in the ideological confrontation between East and West As archival documents gathered in this volume reveal radio broadcasting was among the most pressing concerns of contemporary information agencies These broadcasts could penetrate the Iron Curtain and directly address the enemy Radio was equally important in keeping sustained levels of support among the home public and the public of friendly nations In the early Cold War in particular listeners in the West had to be persuaded of the need for higher defence spending levels and a policy of containment Later even if other media and in particular television had become more important radio continued to be used widely The chapters gathered here investigate both the institutional history of the radio broadcasting corporations in the East and in the West and their relationship with other propaganda agencies of the time They examine the off air politics of radio broadcasting from the choice of theme to the selection of speakers singers and music pieces The key issue tackled by contributors is the problem of measuring the impact of and qualifying the success of information policies and propaganda programmes produced during the Cultural Cold War This book was originally published as a special issue of Cold War History Broadcasting Samuel Lionel Rothafel, Raymond Francis Yates, 1925 Summary of World Broadcasts British Broadcasting Corporation. Daly, Lee Bergman, 2000 Among the few autobiographical works about Vietnam by a black author this memoir by Daly 1946-98 a Jehovah s Witness who renounced the US position after five years in the infamous Hanoi Hilton controversially explores race relations and the less than courageous The introduction provides context Originally published by Bobbs Merrill as A Hero s Welcome Annotation copyrighted by Book News Inc Portland OR **War of the Black Heavens** Michael Nelson, 1997-12-01 International diplomacy and a changing global

economy did not bring about the fall of the Iron Curtain Radio did and it was mightier than the sword Based on first hand interviews and documents from the Central Committee of the Soviet Communist Party Michael Nelson shows that Western radio principally the British Broadcasting Corporation Radio Free Europe Radio Liberty and the Voice of America were unrivaled forces in the fight against communism and the fall of the Iron Curtain The Communists did everything in their power to prevent the infiltration of Western thought into their world resorting to jamming radio signals assassinating staff and bombing stations The Russians for example decided to stop the mass production of short wave radios so that their citizens could not hear Western broadcasts War of the Black Heavens reveals that due to administrative incompetence short wave radio production continued making worthless many of the billions of dollars spent on jamming These radio programs introduced a forbidden exciting culture to millions of eager listeners Pop music talk shows news and information about consumer goods all relayed a message of the good life subtly undermining the values of the communist regimes Western radio actively connected listeners with the cultures of Europe and North America War of the Black Heavens describes an unheralded story of success and adds a new interpretation that helps us understand some of the most momentous political events of this century

American Soldiers Peter S. Kindsvatter,2003 Some warriors are drawn to the thrill of combat and find it the defining moment of their lives Others fall victim to fear exhaustion impaired reasoning and despair This book synthesizes the wartime experiences of American soldiers from the doughboys of World War I to the grunts of Vietnam Focusing on both soldiers and marines it draws on histories and memoirs oral histories psychological and sociological studies and even fiction to show that their experiences remain fundamentally the same regardless of the enemy terrain training or weaponry
