Warlords Rising:

Sensemaking David T. Moore, 2011 NOTE NO FURTHER DISCOUNT FOR THIS PRODUCT OVERSTOCK SALE
Significantly reduced list price Diagnoses the ills of the intelligence community Describes the potential that sensemaking offers as a means precisely for helping policymakers to improve how they think about policy Other related items Critical Thinking and Intelligence Analysis is available here https://bookstore.gpo.gov/products/sku/008_020_01589_0 United States Congressional Serial Set Serial No 14876 Senate Report No 301 U S Intelligence Community s Prewar Intelligence Assessments on Iraq Report of Select Committee on Intelligence is available here https://bookstore.gpo.gov/products/sku/552_108_00074_4 Crafting an Intelligence Community Papers of the First Four DCIs Book and DVD is available here https://bookstore.gpo.gov/products/sku/041_015_00298_8 Interrogation World War II Vietnam and Iraq is available here https://bookstore.gpo.gov/products/sku/008_000_01017_0 Who Watches the Watchmen The Conflict between National Security and Freedom of the Press is available here https://bookstore.gpo.gov/products/sku/008_020_01606_3 **China's Warlords** David Bonavia, 1995 The warlord period from 1912 until roughly the beginning of the Second World War is one of the most extraordinary and colourful in the whole of Chinese history Yet most English language studies of the period have focused on either individual warlords or on warlords as a socio political phenomenon This book profiles all the prominent warlords of the period retelling their most notorious exploits and attempting an analysis of their longevity and motivations Included here are Yuan Shikai who shared leadership of the Republic with Sun Yatsen before attempting to establish a new dynasty with himself as emperor the Christian warlord Feng Yuxiang who stands out for his recognition of the benefits to morale of more humane treatment of his troops and a host of others from throughout the country Illustrated with photographs of each of the primary characters discussed China s Warlords will bring the period alive both to new readers and experienced scholars of Chinese history **Joint Force Quarterly**, 2006 **Global Politics and Violent Non-state Actors** Natasha Ezrow, 2017-03-13 Moving beyond terror groups to examine non state actors including warlords gangs and private security companies Violent Non State Actors Guides you through the core theories and concepts taking a multidisciplinary approach Examines different explanations for the emergence of violent non state actors as well as strategies for dealing with them Weaves in international case studies from groups including the Islamic State Los Zetas Hamas and Al Qaeda as well as discussion questions further reading and definitions of key terms A must read for upper level undergraduate and postgraduate students in politics international relations security and terrorism studies Global Security Upheaval Robert Mandel, 2013-04-03 This book calls into question the commonly held contentions that central governments are the most important or even the sole sources of a nation s stability and that subnational and transnational nonstate forces are a major source of global instability By assessing recent real world trends Mandel reveals that areas exist where it makes little sense to rely on state governments for stability and that attempts to bolster such governments to promote stability often prove

futile He demonstrates how armed nonstate groups can sometimes provide local stability better than states and how power sharing arrangements between states and armed nonstate groups may sometimes be viable He concludes that these trends in the international setting call for major shifts in our understanding of what constitutes stable governance proposing that we adopt a fluid emergent actor approach And he calls for significant deviation from standard policy responses to the

opportunities and dangers posed by nontraditional sources of national authority **Warlords Rising** Honor Raconteur,2016-07-08 Weather Mage Riicheccaan has a plan As plans go this is a pretty good one Officially she needs to go into the Khobunter Libendorf area to figure out what is messing with her weather patterns Unofficially since they are going that far north it s the perfect opportunity to get dragons Sure traveling that direction is dangerous but with Trev nor and Nolan going along there isn t much to worry about as three full trained mages can handle just about anything But from the moment the three set foot in Khobunter nothing goes according to plan The whole world knows that Khobunter is a political mess but there s another darker layer underneath it all that no one speaks of The three prodigy mages are ensnared by it before they can fully comprehend what s going on Fighting against an entire country is not something that just three people can handle even if they are mages Becca Nolan and Trev nor don t have much of a choice though There is an abhorrent evil right in front of their eyes and they only have one of two options fight or flee Unfortunately for Khobunter no one has ever taught them how to run **Warlords Rising** Troy S. Thomas,Stephen D. Kiser,William D. Casebeer,2005 Violent non state actors VNSA often serve a destabilizing role in nearly every humanitarian and political crisis faced by the international community As non state armed groups gain greater access to resources and networks through global interconnectivity they have come to dominate the terrain of illegal trade in drugs guns and humans Warlords Rising arms those confronting the mounting challenge by delivering an innovative interdisciplinary framework of analysis designed to improve understanding of non state adversaries in order to affect their development and performance Examining the utility of traditional theories of deterrence and warfighting in light of the insight gained through this interdisciplinary approach the authors elevate the powerful role of environmental shaping in group development recast deterrence in ecological terms and lay out a strategy to defeat non state adversaries if necessary Whether the goal is preventing coercing or conquering the framework of analysis presented here is designed to be universal allowing for structured analysis across regions types and functions of non state actors and providing the decision maker and policy maker with a variety of modes and methods of intervention *Warlords and Merchants* Kamāl Dīb,2004 Warlords and Merchants examines the history of the Lebanese warlord business establishment and illuminates local attitudes which have often seemed baffling to the outside world The book provides a close up study of Lebanese leaders and the business class It provides a seminal illustration of and insight into the resistance of local cultures and small countries such as Lebanon to the juggernaut of globalization Based on firsthand observations and knowledge of Lebanese history economy language and culture the author deals here with most of the issues that vex Lebanon

today sectarianism traditional leadership outdated business practices an archaic economic structure and a deep sense of historical grievances Warlords and Merchants is a must read for policymakers business and political leaders as well as students and academics with research interests in Lebanon the Middle East and international affairs The Pacific War and Its Political Legacies Denny Roy,2009-04-30 Intends to recount the events of the Pacific War that continue to vex international relations in Northeast Asia This title explains the origins of contending interpretations of the war and how those interpretations have led to the positions and policies of postwar governments and societal groups on issues directly related to the war **Nuclear Weapons Proliferation in the Next Decade** Peter Lavoy,2007 This special issue examines the factors that are likely to shape nuclear weapons proliferation over the next decade **Manchuria** ,1938 Dark Logic Robert Mandel,2010-11-09 Since the end of the Cold War transnational non state forces have been a major source of global instability with many ominous and disruptive flows of people goods and services moving readily across international boundaries And because these activities are so multifaceted and so intertwined within the fabric of society they remain largely invisible until the intrusion is well advanced and difficult to reverse Thus the threat posed by transnational organized crime ultimately undermines the total security of countries including the economic cultural and political dimensions and now presents an international security challenge of staggering proportions Surprisingly no single book so far has fully addressed the scale of this threat to global stability from an international security perspective In an attempt to rectify that failure Dark Logic examines in depth when and how transnational organized crime is likely to use corruption and violence to achieve its ends and when and how these criminal activities most affect individual and state security Even more important it pinpoints when and how the negative consequences of these tactics and activities can be most successfully combated In so doing it provides a unique lens for analyzing today s global security dilemmas Given that the threat associated with transnational organized crime can endanger all citizens from policy makers and security analysts to students scholars and the man and woman on the street this book is written in an intelligible and jargon free style to make it accessible to anyone interested in the ever growing catalog of threats to national and international security **Guerrilla and Terrorist Organisations** Peter Janke,Richard Sim,1983 Computer Gaming World ,2002 **American Rifleman** ,1953 **A Documentary History of Chinese Communism** Conrad Brandt,Benjamin Isadore Schwartz,John King Fairbank,1959 *American Book Publishing Record* ,2005 Civil Wars of the World Karl R. DeRouen,Uk Heo,2007-05-10 This unique two volume reference is the most authoritative up to date resource available for information and data on the most volatile civil wars around the globe since World War II At a time when historians are devoting more and more research to conflicts within nations Civil Wars of the World Major Conflicts since World War II is an invaluable addition to the available resources In two volumes it ranges around the globe to cover the most volatile and deadly civil wars of the past 60 years including the bloody impasses in the Middle East devastating tribal warfare in Africa Cold War fueled conflicts in Eastern Europe and Asia the seemingly unbreakable

cycle of rebellion and repression in some regions of Latin America and more Civil Wars of the World moves country by country to describe the causes course and consequences of internal conflicts within each nation Coverage includes the historical background of each country geographic and economic factors descriptions of rebel groups and governments e g regime type size of military capacity terrorism foreign and or intergovernmental organization IGO intervention UN foreign support for rebels foreign aid and prospects for peace A Z entries cover over 70 nations around the world where the deadliest civil wars have broken out including information on the nation s history politics rebel factions and the course of the conflict Contributions from an international group of accomplished historians including David Carment and Michael Baruticiski Includes an extensive introductory essay plus regional essays that explore trends and overall themes Maps for each nation examined provide all pertinent geographic and political data while charting the course of each conflict Extensive reference material for each entry including bibliographies and print and online reference citations

Moral Markets Paul J. Zak, 2008 Drawing on converging evidence from neuroscience social science biology law and philosophy Moral Markets makes the case that modern market exchange works only because most people most of the time act virtuously from publisher description
