**How Wars End** Dan Reiter, 2009-09-06 Dan Reiter explains how information about combat outcomes and other factors may persuade a warring nation to demand more or less in peace negotiations and why a country might refuse to negotiate limited terms and instead tenaciously pursue absolute victory if it fears that its enemy might renege on a peace deal He fully lays out the theory and then tests it on more than twenty cases of war termination behavior including decisions during the American Civil War the two world wars and the Korean War Reiter helps solve some of the most enduring puzzles in military history such as why Abraham Lincoln issued the Emancipation Proclamation why Germany in 1918 renewed its attack in the West after securing peace with Russia in the East and why Britain refused to seek peace terms with Germany after France fell in 1940

**How Wars End** Damien Kingsbury, Richard Iron, 2022-12-27 This book addresses one of the most important issues in international relations how wars are ended The volume draws on the direct experience of both soldiers and academics who in each case have also been advisers on fighting and ending wars Unlike more theoretical works the book draws on first hand experiences in the case studies which include the wars in Iraq Afghanistan Sierra Leone and Indonesia among others The volume is constructed around a series of themes The first theme is why wars start and how they can be understood based on the assumption that knowing how and why wars start is fundamental to understanding how they might end The second is what sustains wars and what makes them difficult to end Again once wars start understanding what keeps them going is critical to how to end them The third focuses on the role of external intervention in ending wars including as a belligerent partner in war as a peacemaking or peacekeeping force and as a mediator between warring parties The fourth addresses the issue of ripeness and the right conditions for ending wars The fifth addresses the modalities for ending wars and creating peace with the sixth theme being focused on transitions to peace and what is required to help make those transitions successful The book will be of interest to students of military strategic and security studies peace studies and International Relations
