Strange Behavior:

Normal and Abnormal Behavior in Chinese Culture A. Kleinman, T.Y. Lin, 1980-12-31 Our purpose in assembling the papers in this collection is to introduce readers to studies of normal and abnormal behavior in Chinese culture We want to offer a sense of what psychiatrists and social scientists are doing to advance our understanding of this subject including what findings are being made what questions researched what conundrums worried over Since our fund of knowledge is obviously incomplete we want our readers to be aware of the limits to what we know and to our acquisition of new knowledge Although the subject is too vast and uncharted to support a comprehensive synthesis in a few areas e.g. psychiatric epidemiology enough is known for us to be able to present major reviews The chapters themselves cover a variety of themes that we regard as both intrinsically interesting and deserving of more systematic evaluation Many of the issues they address we believe to be valid concerns for comparative cross cultural studies No attempt is made to artificially integrate these chapters since the editors wish to highlight their distinctive interpretive frameworks as evidence of the rich variety of approaches that scholars take to this subject We see this volume as a modest and self consciously limited exploration Here are some accounts and interpretations but by no means all of normal and abnormal behavior in the context of Chinese culture that we believe fashion a more discriminating understanding of at least a few important aspects of that subject

Abnormal Behavior: Pitfalls of Our Minds Irving Jesse Sands, Phyllis Mary Blanchard, 1923 Hearts of Darkness John Liebert, William J. Birnes, 2014-05-06 From Sandy Hook Connecticut to Aurora Colorado to Tucson Arizona this nation has been racked from coast to coast with mass shootings perpetrated by criminals with sick minds Authors Dr Liebert and Dr Birnes believe the increase in violence is an epidemic and dig deep into the causes of mental illness to determine what exactly is going on with these individuals and society as a whole and what action can be taken to slow this frightening trend toward mass violence Dr Liebert and Dr Birnes believe that many mass suicides are predictable and preventable Dr Liebert uses his extensive experience in psychopathology and criminal psychology to describe how clinicians can identify the behaviors of potential suicidal mass killers and possibly prevent their crimes if they read the warning signs when legal opportunities present themselves such as when recurrent domestic violence or psychotic communications are reported to authorities The authors also discuss the influence of media particularly violent video games and how the evolution of American culture affects suicidal mental illness With startling statistics fascinating case studies and practical no nonsense solutions the authors present a groundbreaking and compelling treatise on violence in America

Schizophrenia Bulletin, 1985 **Eccentric and Bizarre Behaviors** Louis R. Franzini, John M. Grossberg, 1995-05-08 Louis Franzini and John Grossberg take readers behind the tabloid headlines and media exposes to tell the real life stories of emotionally damaged men and women driven to horrific extremes in their efforts to gratify their basic human needs for love and attention Adolescent Psychiatry, V. 21 Lois T. Flaherty, Harvey Horowitz, 2016-04-15 Launched in 1971 Adolescent Psychiatry in the words of founding coeditors

Sherman C Feinstein Peter L Giovacchini and Arthur A Miller promised to explore adolescence as a process to enter challenging and exciting areas that may have profound effects on our basic concepts Further they promised a series that will provide a forum for the expression of ideas and problems that plague and excite so many of us working in this enigmatic but fascinating field For over two decades Adolescent Psychiatry has fulfilled this promise The repository of a wealth of original studies by preeminent clinicians developmental researchers and social scientists specializing in this stage of life the series has become an essential resource for all mental health practitioners working with youth Volume 21 honors the memory of Richard C Marohn former editor of Adolescent Psychiatry and Herman D Staples founding member of the American Society for Adolescent Psychiatry It begins with a section of papers that ranges over important aspects of Development and Psychopathology Topics explored by the contributors include adolescents and authority adolescents and disaster adolescent awareness of the past adolescent daughters of divorce parent loss adolescent schizophrenia and adolescent mood disorders Sections on Assessment Issues in Psychotherapy and Training round out a balanced survey of the field that is true to the spirit of this distinguished series Volume 21 will be rewarding reading for child and adolescent therapists and all students of early development
