### C2BMC

Command and Control, Battle Management, and Communications

The Command and Control, Battle Management, and Communications (C2BMC) program is the key to the Ballistic Missile Defense System (BMDS). It is a vital operational system that enables the U.S. Resident, Secretary of Defense and Commanders of Defense Regions and Component Commands to coordinate and control missile defense operations. To contribute to the nation's security, we're developing a highly integrated structural system and software systems to protect ground and regional missile operations.
