Works For Windows For Educators:

Works for Windows for Educators James H. Wiebe, Jeffrey M. Moreton, Simeon Peter Slovacek, 1996 This is one of the only texts currently available that uses an educational technology approach to teach Microsoft Works 3.0 for Windows. Most MS Works books are geared towards business courses but this text speaks directly to the needs of a teacher in the classroom. Topics addressed include Windows Works tools, Works integration, telecommunication using MS Works, the Internet, and LinkWay. These subjects, as well as evaluation forms for computer-based instruction, make this text an extremely useful tool in an introductory computing course requiring no previous computer training. **Popular Educator**, 1897
