## **Taking Command:**

Taking Command David Richards, 2014-10-09 General Sir David Richards is one of the best known British generals of modern times. In 2013 he retired after over forty years of service in the British Army and a career that had seen him rise from junior officer with 20 Commando to Chief of the Defence Staff, the professional head of the British Armed Forces. He served in the Far East, Germany, Northern Ireland, and East Timor. He was the last Governor of Berlin's Spandau Prison when Rudolf Hess, Hitler's deputy, was its sole prisoner. In 2005 he was appointed Commander of the Allied Rapid Reaction Corps in Afghanistan and as commander of NATO forces became the first British General to command US Forces in combat since the Second World War. In 2000 Richards won acclaim when he brought together a coalition of forces in Sierra Leone to stop the ultra-violent Revolutionary United Front from attacking the capital Freetown. In so doing he ended one of the bloodiest civil wars to bedevil the region. He did so without the official sanction of London and failure could have cost him his career. As Chief of the Defence Staff he advised the government during the crises and interventions in Libya and Syria and oversaw the controversial Strategic Defence and Security Review. **Taking Command** is Richards' characteristically outspoken account of a career that took him into the highest echelons of military command and politics. Written with candour and often humour, his story reflects the changing reality of life for the modern soldier over the last forty years and offers unprecedented insight into the readiness of our military to tackle the threats and challenges we face today. **Special Warfare**, 2008 **Structural**

**Firefighting** Bernard J. Klane, 2015-01-02 Safe and effective structural firefighting requires a complex thought process. It is not a simple matter of how to. Decisions depend on many factors, from the type of building to the likelihood of occupancy to the water supply. The third edition of **Structural Firefighting Strategy and Tactics** leads readers through all phases of planning, evaluation, and implementation to enable them to effectively manage structure fire incidents in a safe and effective manner, regardless of size or complexity. The third edition has been revised to thoroughly cover the practical applications and limitations of the latest research from Underwriters Laboratories (UL) and National Institute of Standards and Technology (NIST), as well as a discussion of actual recent fire incidents and what can be learned from them. Updated statistical information and coverage of the latest applicable standards. Use of real-world examples to reinforce chapter concepts. Student exercises based on practical and real scenarios. By applying the principles described in **Structural Firefighting Strategy and Tactics, Third Edition**, even the most experienced fire officers and incident commanders will be able to utilize their knowledge more effectively at the scene. **Cobbett's Parliamentary Debates** Great Britain.
