Thematics Of Commitment:

The Thematics of Commitment Peter Maxwell Cryle, 2016-04-19 Viewing thematic writing as the differentiation and elaboration of cultural knowledge P M Cryle applies this new kind of thematics to the commitment most often mentioned by literary critics in connection with existentialist literature Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Thematics Reconsidered ,2023-11-20 Responding to a new interest in thematic studies the volume features essays by some of the leading scholars from the United States and Europe In honor of Horst S Daemmrich the co author with Ingrid Daemmrich of the handbook *Themes and Motifs in Western Literature* the contributors reassess both in theory and in case studies the viability of thematics as part of contemporary literary criticism They demonstrate the broad scope of methodologies between strict systematization of themes and motifs and reader response conceptions of theming Special topics include a thematology of the Jewish people motifs in folklore a cluster on madness hysteria and mastery the story of Judith Cinderella thematics in D rrenmatt and Isaac Babel chaos as a theme A concluding chapter illuminates aspects of nineteenth century literary history *Biennial review 2019: Commitment 3: Ending hunger by 2025* Kurtz, Julie E., Ulimwengu, John M., 2020-11-11 In line with the Maputo Declaration that established the Comprehensive Africa Agriculture Development Programme CAADP in 2003 and with the 2014 Malabo Declaration African Union AU Member States pledged to conduct a continentwide Biennial Review BR to monitor and report on progress in achieving seven thematic commitments outlined in the Declaration The inaugural 2017 BR Report the first of its kind in Africa was launched and endorsed by the AU General Assembly in January 2018 The second BR report was adopted at the AU General Assembly in February 2020 *Commitment as a Theme in African American Literature* R. Jothiprakash, 1994 Thematic Origins of Scientific Thought Gerald Holton, 1988-05-25 The highly acclaimed first edition of this major work convincingly established Gerald Holton s analysis of the ways scientific ideas evolve His concept of themata induced from case studies with special attention to the work of Einstein has become one of the chief tools for understanding scientific progress It is now one of the main approaches in the study of the initiation and acceptance of individual scientific insights Three principal consequences of this perspective extend beyond the study of the history of science itself It provides philosophers of science with the kind of raw material on which some of the best work in their field is based It helps intellectual historians to redefine the place of modern science in contemporary culture by identifying influences on the scientific imagination And it prompts educators to reexamine the conventional concepts of education in science In this new edition Holton has masterfully reshaped the

contents and widened the coverage Significant new material has been added including a penetrating account of the advent of quantum physics in the United States and a broad consideration of the integrity of science as exemplified in the work of Niels Bohr In addition a revised introduction and a new postscript provide an updated perspective on the role of themata The result of this thoroughgoing revision is an indispensable volume for scholars and students of scientific thought and intellectual history

The Return of Thematic Criticism Werner Sollors, 1993 Once it was anathema to speak about the content of a work of art in the wake of high modernism and formalism Critical practice has moved beyond such limits and today the focus on themes is the hallmark of

feminist new historicist ethnic and even deconstructionist approaches though that focus may not always be openly declared This manifesto reasserts the validity of the thematic approach to criticism in our day bringing together for the first time an international group of critics and theoreticians who have thought deeply about literary motifs and themes How can we

determine the theme of a given text May the focus on form be the theme of a certain moment Can the motif be understood as a formal category What operations permit us to say that three or four texts constitute variants of the same theme The contributors challenge the conventional dismissal of merely thematic approaches and offer the reader different ways of

tackling the issue of what a piece of writing is about The work here comes out of such diverse intellectual traditions as Russian film theory French phenomenology Foucault narratology the Frankfurt School intellectual history Geistesgeschichte psychoanalytic criticism linguistics ideological criticism Proppian folklore studies and computerized plot summary models In

addition to a collection of aphorisms from Plato to Robert Coover and a group of general and theoretical essays this volume contains examples of practical engagement with such topics as literary history Shakespeare autumn poetry anti Semitism fading colors bachelors Richard Wagner and the Mexican Revolution No comparable volume exists
