Space Mutiny:

'80s Action Movies on the Cheap Daniel R. Budnik,2017-03-21 The 1980s was the decade when the action film as it is now known came into being Nonstop big budget excitement became the standard as epic adventures like Raiders of the Lost Ark and The Road Warrior set the tone for the summer blockbusters of Sylvester Stallone Arnold Schwarzenegger and Chuck Norris Homages and ripoffs made with lesser budgets followed every hit especially with the advent of direct to video releases Providing detailed commentary on 284 films this book explores the excitement audacity and sheer weirdness of 80s low budget action cinema from the American Ninja series to dime a dozen barbarian pictures to such bargain basement productions as The Courier of Death Kill Squad and Samurai Cop *The Comic Galaxy of Mystery Science Theater 3000*

Chris Morgan,2015-01-09 One of the most original shows in the history of television Mystery Science Theater 3000 is a beloved cult hit built on the back of another cult phenomenon the bad movie The show's premise involved a man and some robots watching cheesy movies and cracking jokes Over its 197 episodes MST3K developed a passionate fan base that took it from a local UHF show in Hopkins Minnesota to a major motion picture This is the story of MST3K from the beginning to the end Twelve of the episodes are covered giving an in depth look at the show its ethos and its comedic style The films screened in these episodes are discussed critically as are the episodes themselves **"Twice the Thrills! Twice the Chills!"**

Bryan Senn,2019-02-28 In the mid 1950s to combat declining theater attendance film distributors began releasing pre packaged genre double bills including many horror and science fiction double features Though many of these films were low budget and low end others such as Invasion of the Body Snatchers Horror of Dracula and The Fly became bona fide classics Beginning with Universal International's 1955 pairing of Revenge of the Creature and Cult of the Cobra 147 officially sanctioned horror and sci fi double bills were released over a 20 year period This book presents these double features year by year and includes production details historical notes and critical commentary for each film *The Spacesuit Film*

Gary Westfahl,2014-01-10 Filmmakers employ various images to suggest the strangeness of outer space but protective spacesuits most powerfully communicate its dangers and the frailty of humans beyond the cradle of Earth Many films set in space however forgo spacesuits altogether reluctant to hide famous faces behind bulky helmets and ill fitting jumpsuits This critical history comprehensively examines science fiction films that portray space travel realistically and sometimes not quite so by having characters wear spacesuits Beginning A with the pioneering Himmelskibet 1918 and Woman on the Moon 1929 it discusses B other classics in this tradition including Destination Moon 1950 Riders to the Stars 1954 and 2001 A Space Odyssey 1968 C films that gesture toward realism but betray that goal with melodramatic villains low comedy or improbable monsters D the distinctive spacesuit films of Western Europe Russia and Japan and E America's spectacular real life spacesuit film the televised Apollo 11 moon landing 1969 **Variety's Complete Home Video Directory**,1989 The Encyclopedia of Fantastic Film

The Homestead Sam Mangat,2000-07-18 In a fit of drunken bravado Co Navigator Anthony Troy tries a stunt to impress his date of the evening While the rest of the ship parties away the Diamond Jubilee of the New Era the duo soon find themselves in a terrible jam Both get lost in space It is then that he also discovers that the lady in question is none other than the only daughter of Marshall Bingenbatten who happens to be the most powerful man in the Asteroid belt space stations and tipped to be the Grand Marshall of the Space Fleet of Earth Though they are rescued by a near miracle Anthony soon finds himself in a bigger mess than before all because of the lady With the result the entire hierarchy of the Space Fleet comes down on him like the proverbial ton of bricks He is left with no option but to flee Earth and head for Mars where the mutants are being dumped by the pure beings of Earth There he is surprised to find these unfortunate victims of the nuclear holocaust have recovered from the humiliations heaped on them and are building a fleet to contest the Solar System They have also renamed the planet Since it is now their new home they call it the Homestead They are aware even though the Earthlings are not that due to the large amount of energy released by the nuclear explosions the Earth has begun to slow down Which means the pure beings will also sooner or later have to migrate to the Homestead This they would have to do either on the terms of the mutants or it would be war He joins them eagerly as he has always been against the enforced exodus of the mutants and places his experience at their disposal Both sides then head for the climatic and now famous Battle of the Shepherd Moons one of the most decisive battles in the history of the Earth Note The Homestead the authors maiden venture reached the Quarter Finals in the Writers Digest Annual Writing Contest Beverly Hills CA
