Have you ever seen something you couldn't explain? This meticulously researched and thrilling exploration of the otherworldly will challenge your idea of reality. Mysterious wolf people, sentient mists, and UFOs: if you've ever heard a curious bump in the night, caught a glimpse of a strange-looking someone, or something out of the corner of your eye, or seen an unusual craft dart across the sky before it vanishes without a trace, there's only one person to call: Linda S. Godfrey. An expert in strange creatures and lore, she has offered reporting on bigfoots, werewolves, strange energy forms, and other bizarre beings for years. Godfrey will enthrall even skeptics as she leads you through the mystical, legendary, and scientific angles of these creatures and the myths that surround them. Within these pages, you will encounter first-hand testimony of a terrifying transformation from woman to beast during a church service, no less. The Lost Lizard People of Los Angeles: A growling, phantom-like home invader. Wolfmen who walk on two legs. People stalked by invisible predators. Delivering a broad mix of modern-day and historical sightings, and supported by Godfrey's interviews with eyewitnesses, *Monsters Among Us* is essential reading for anyone hunting for the real accounts behind their childhood campfire stories.

*The New Circlemakers* Andrew Collins, 2009-03. What is the mystery of the crop circles? Are they manmade or supernatural? Today, the majestic crop formations grace the very same pastures of southern England that in the past were the haunts of fairies, hobgoblins, and mysterious lights. Here too are some of Britain's most spectacular prehistoric landscapes: Stonehenge, Avebury, and Silbury Hill. All act as ominous backdrops to the crop circle phenomenon. Did our ancestors know something about this beguiling, enchanting landscape that we are only now waking up to for the first time? Is there a higher intelligence responsible for such creations, and if so, who are they, and what are they trying to tell us? Bizarrely, the answer might lie not here on earth, but 37,000 light years away in the constellation of Cygnus, the Northern Cross, where lurks a star perhaps responsible not only for the foundation of the world's earliest stone monuments, but for the emergence of humanity itself.

*UFO Headquarters* Susan Wright, 1998-08-15. The government said it needed Area 51 to protect America. They said they needed it for research. Now some say it has all been a terrible lie. In the annals of UFO controversies, there has never been a place like this: sixty square miles of desert and scrub just north of Las Vegas, Nevada. Officially known as a U.S. Air Force testing ground, this area has accounted for more UFO sightings and more inexplicable activity than any other in the world, leading experts to dub Area 51 Earth's unofficial UFO headquarters. Now UFO writer Susan Wright seeks to answer the riddle, once and for all, delving into previously secret government documents, drawing on eyewitness accounts, and ripping the veil of secrecy off Area 51 and the research that really goes on there. The result is the most shocking and thoroughly documented UFO book you have ever read: a book that demonstrates that for fifty years, the U.S. government has had one overriding policy on Area 51: whenever
