The Bump:

The Bump in the Road Dr. Paul Thomas, 2016-07-25 Journeying through grief when a loved one dies is something people struggle with. Many are faced with difficult and painful feelings. Many feel abandoned by relatives, friends, and even God. When one journeys through grief, often times you will find the first year is the hardest. In Psalm 147:3 it states, "He healeth the broken in heart and bindeth up their wounds." *The Bump in the Road* helps the reader to know the sovereignty of God outweighs any test or trial you face. God will never leave you or forsake you. One must remember to stay connected to God, our source of strength and comfort.

The Handbook of Gender, Sex, and Media Karen Ross, 2011-09-07 *The Handbook of Gender, Sex, and Media* offers original insights into the complex set of relations which exist between gender, sex, sexualities, and the media, and in doing so showcases new research at the forefront of media and communication practice and theory. It brings together a collection of new cutting edge research exploring a number of different facets of the broad relationship between gender and media. It moves beyond associating gender with man, woman, and instead considers the relationship between the construction of gender norms, biological sex, and the mediation of sex and sexuality. It offers genuinely new insights into the complicated and complex set of relations which exist between gender, sex, sexualities, and the media. Essay topics range from the continuing sexism of TV advertising to ways in which the internet is facilitating the re-invention of our sexual selves.

Exploring the Universe with the IUE Satellite Y. Kondo, Willem Wamsteker, A. Boggess, M. Grewing, C. de Jager, A.L. Lane, Jeffrey L. Linsky, R. Wilson, 2013-12-11 This book was conceived to commemorate the continuing success of the guest observer program for the International Ultraviolet Explorer (IUE) satellite observatory. It is also hoped that this volume will serve as a useful tutorial for those pursuing research in related fields with future space observatories. As the IUE has been the product of the three-way collaboration between the U.S. National Aeronautics and Space Administration (NASA), European Space Agency (ESA), and the British Engineering and Research Council (SERC), so is this book the fruit of the collaboration of the American and European participants in the IUE. As such, it is a testimony to timely international cooperation and sharing of resources that open up new possibilities. The IUE spacecraft was launched on the 26th of January in 1978 into a geosynchronous orbit over the Atlantic Ocean. The scientific operations of the IUE are performed for 16 hours a day from Goddard Space Flight Center in Greenbelt, Maryland, U.S.A. and for 8 hours a day from ESA Villafranca Satellite Tracking Station near Madrid, Spain.
