The Elements of Visualisation Ursula Markham,1989 *The Elements of Visualization* Ursula Markham,1997 Since its launch in 1989 the Elements of Series has introduced thousands of readers to a variety of spiritual traditions and techniques some ahead of their time Now the series returns with a fresh new look for a new generation of readers Each title offers a quality introduction to its subject written by an expert in the particular field **Elements of Difficulty in the Interpretation of Concrete Problems in Arithmetic** Lars Larson Hydle,1925 Numerical Structural Analysis Anatoly Perelmuter,Vladimir Slivker,2013-11-11 To our sons Mike Andrew Alex who did not inherit their fathers level of interest in applied mechanics but who became sophisticated in software development and in this regard surpassed their parents A P V S Hard times came the god5 got angry Children do not behave themselves and everybody wishes to write a book Ancient Babylonian inscription X Preface Preface to the English Edition The book you are reading is a translation from Russian into English Within a pretty short term this book saw two editions in Russian The authors received in spiring responses from readers that both stimulated our continuing and improving this work and made sure it would not be in vain of us to try to multiply our readers by covering the English speaking engineering community When we prepared the present edition we took into account interests of the Western readers so we had to make some changes to our text published earlier These changes include the following aspects First we excluded a lot of references and discussions regarding Russian engi neering codes It seems to us those are of no real interest for Western engineers oriented at Eurocode or national construction design regulations **Making a Mantra** Ellen Gough,2021-10-11 Jainism originated in India and shares some features with Buddhism and Hinduism but it is a distinct tradition with its own key texts art rituals beliefs and history One important way it has often been distinguished from Buddhism and Hinduism is through the highly contested category of Tantra Jainism unlike the others does not contain a tantric path to liberation But in Making a Mantra historian of religions Ellen Gough refines and challenges our understanding of Tantra by looking at the development over two millennia of a Jain incantation or mantra that evolved from an auspicious invocation in a second century text into a key component of mendicant initiations and meditations that continue to this day Typically Jainism is characterized as a celibate ascetic path to liberation in which one destroys karma through austerities while the tantric path to liberation is characterized as embracing the pleasures of the material world requiring the ritual use of mantras to destroy karma Gough however argues that asceticism and Tantra should not be viewed in opposition to one another She does so by showing that Jains perform tantric rituals of initiation and meditation on mantras and ma alas Jainism includes kinds of tantric practices Gough provocatively argues because tantric practices are a logical extension of the ascetic path to liberation **The Philosopher's Stone for Sustainability** Yoshiki Shimomura,Koji Kimita,2012-09-26 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade IPS2 has allowed us to achieve both high added

value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher s stone for solving these issues Following the pattern of conferences held in Cranfield in 2009 Link ping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8 9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year s conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas
