called it is now in evidence all around us in global value chains zero hours contracts and contract work organised through digital platforms It results from competition between capitalists scientific and technological revolutions in production and incessant advances in the division of labour as production processes are broken down into ever smaller steps This book documents the leading roles of the Paris based Organisation for Economic Cooperation and Development and the Washington based World Bank as advocates of these developments They do not as generally supposed simply represent the interests of the advanced economies or the West and their transnational corporations They promote a single global model of capitalist development without limits and on a genuinely global scale It calls upon all states to adjust continually to the structural and social demands of competitiveness which they see as essential to the global hegemony of capital over labour The OECD and the World Bank propose policies that give girls and women equal access to education and paid work reform welfare to make work pay introduce flexible labour contracts that make hiring and firing easier focus education on skills that boost employability and draw workers in the developing world from the informal sector into the formal sector where they can be more productive This is the politics of global competitiveness

Human Development in Iraq Bassam Yousif,2013-06-17 This systematic evaluation of Iraq s political economy and human development offers a complex and sophisticated analysis of Iraq s recent history Focusing on the period from 1950 up to the Gulf war in 1990 the book brings an understanding of how development has been shaped or constrained in this much misunderstood country The author employs the human development paradigm to link human development and human rights to the analysis of political economy The resulting scholarship on income and investment education and health the status of women and human rights presents a nuanced balanced but critical appraisal of the complex interrelationships between economic growth and development and illustrates the fragility of that development especially when political institutions fail to keep up with the rapid expansion in human capabilities Providing the historical analysis needed to understand Iraq s current political situation this book will be of great interest to scholars of development studies Iraq and political economy
