## **World Divided:**

**Thee Truth** Bonga Makholwa,2015-06-15 The truth is that there is something within you that is not in harmony with what you believe Your will is not in harmony with what should be There is something within you that sees the world and knows that these answers are not leading to what actually should be All through life you have chosen to look at the world as you are and what your circumstances told you You never took time to look at it as it is and at its true nature for I tell you the painful truth life is really simple but you insist on complicating it For a long time you have listened to outside noises and ignored the voice inside you You have forgotten the person you were before the world told you who you are for I say to you take a look at the world closely Now see what I see feel what I feel understand what I understand and perceive what I perceive According to religion 99 percent are going to heaven According to the Son of Man a mere 1 percent is going to hell For I tell you the truth not all you have been told is what truly is for some people have been fooled most of this time but I tell you the truth not all of the people can be fooled all of the time For a long time you have searched for the door to the truth only to realize that you had the key all along for I tell you the truth you are what you think not what you think you are Think about it Now think about it Beyond the Divide Simo Mikkonen,Pia Koivunen,2015-10-01 Cold War history has emphasized the division of Europe into two warring camps with separate ideologies and little in common This volume presents an alternative perspective by suggesting that there were transnational networks bridging the gap and connecting like minded people on both sides of the divide Long before the fall of the Berlin Wall there were institutions organizations and individuals who brought people from the East and the West together joined by shared professions ideas and sometimes even through marriage The volume aims at proving that the post WWII histories of Western and Eastern Europe were entangled by looking at cases involving France Denmark Poland Romania Switzerland and others **The Innovative Church** Scott Cormode,2020-09-15 The church as we know it is calibrated for a world that no longer exists It needs to recalibrate in order to address the questions that animate today s congregants Leading congregational researcher Scott Cormode explores the role of Christian practices in recalibrating the church for the twenty first century offering church leaders innovative ways to express the never changing gospel to their ever changing congregations The book has been road tested with over one hundred churches through the Fuller Youth Institute and includes five questions that guide Christian leaders who wish to innovate **Religious Denominations of the World** Vincent L. **Analysing Historical Narratives** Stefan Berger, Nicola Brauch, Chris Lorenz, 2021-05-14 For all of the recent debates over the methods and theoretical underpinnings of the historical profession scholars and laypeople alike still frequently think of history in terms of storytelling Accordingly historians and theorists have devoted much attention to how historical narratives work illuminating the ways they can bind together events shape an argument and lend support to ideology From ancient Greece to modern day bestsellers the studies gathered here offer a wide ranging analysis of the textual strategies used by historians They show how in spite of the pursuit of truth and objectivity the ways in which historians tell their stories are inevitably conditioned by their discursive contexts
