*Space Captive* Martin Hughes, 2005      **Tigers of the World** Ronald Tilson, Philip J. Nyhus, 2009-11-30 *Tigers of the World* Second Edition explores tiger biology ecology conservation management and the science and technology that make this possible In 1988 when the first edition was published tiger conservation was still in its infancy and two decades later there has been a revolution not only in what is known but how information about tigers is obtained and disseminated In the fast changing world of conservation there is a great need to summarize the vast and current state of the art to put this into historical perspective and to speculate in what yet remains to be done *Tigers of the World* Second Edition fulfills this need by bringing together in a unique way the world's leading tiger experts into one volume Despite the challenges ahead there are bright spots in this story and lessons aplenty not only for tiger specialists but large carnivore specialists conservation biologists wildlife managers natural resource policymakers and most importantly the caring public Examines the past twenty years of research from the world's leading tiger experts on biology politics and conservation Describes latest methods used to disseminate and obtain information needed for conservation and care of this species Includes coverage on genetics and ecology policy poaching and trade captive breeding and farming and the status of Asia's last wild tigers Excellent resource for grad courses in conservation biology wildlife management and veterinary programs New volume continues the classic Noyes Series in Animal Behavior Ecology Conservation and Management      DDC Retrieval and Indexing Terminology Defense Documentation Center (U.S.), 1975      The OM Guy Steven Needler, 2023-05-03 What are The Om Why are they Uncreated How can they operate outside of the structure of the Multiverse Why are they not involved in the evolutionary cycle In *The Om The Uncreated* Creations the reader will gain an understanding of what these rare entities are their interaction with The Origin and The Source and why they are considered to be Uncreated In direct dialogue with *The Om* the Author describes How The OM became uncreated their structure and their variants including New Om What random sentience is The gaps in The Origin's structure and what The Origin is doing to fill these gaps What constitutes a Universal Computer How machine sentience is generated How to take evolutionary short cuts by increasing evolutionary content via parallel existence Quantum latency and quantum fluidity and its functionality Why mathematics will never be able to explain the physical universe The role of Event Space in the uncreativity of The Om That singular dominant sentience is the inevitable outcome Or is it      *Words and Spaces* Stuart Saunders Smith, Thomas DeLio, 1989 This volume is presented as a collection of primary research materials for scholars and artists Each composer presents either a score or some form of documentation of one of his works and in an accompanying essay discusses his music in detail exploring both its aesthetic and structural premises The purpose of this book is not to present analyses or critical evaluations of this original and diverse body of works but rather for the first time to document the major activities of recent composers working in the important hybrid media of sound text and sound installation It is hoped that this book will mark the beginning of a general recognition

of the importance of such inter media works as well as encourage future exploration of the aesthetic and structural innovations continued therein Composers discussed include John Cage Robert Ashley Max Neuhaus Alvin Lucier and Kenneth Gaburo

**The Shared Mind** Jordan Zlatev, 2008 The cognitive and language sciences are increasingly oriented towards the social dimension of human cognition and communication The hitherto dominant approach in modern cognitive science has viewed social cognition through the prism of the traditional philosophical puzzle of how individuals solve the problem of understanding Other Minds The Shared Mind challenges the conventional theory of mind approach proposing that the human mind is fundamentally based on intersubjectivity the sharing of affective conative intentional and cognitive states and processes between a plurality of subjects The socially shared intersubjective foundation of the human mind is manifest in the structure of early interaction and communication imitation gestural communication and the normative and argumentative nature of language In this path breaking volume leading researchers from psychology linguistics philosophy and primatology offer complementary perspectives on the role of intersubjectivity in the context of human development comparative cognition and evolution and language and linguistic theory

**Electric Vehicle Integration in a Smart Microgrid Environment** Mohammad Saad Alam, Mahesh Krishnamurthy, 2021-08-19 Electric Vehicle Integration in a Smart Microgrid Environment The growing demand for energy in today s world especially in the Middle East and Southeast Asia has been met with massive exploitation of fossil fuels resulting in an increase in environmental pollutants In order to mitigate the issues arising from conventional internal combustion engine powered vehicles there has been a considerable acceleration in the adoption of electric vehicles EVs Research has shown that the impact of fossil fuel use in transportation and surging demand in power owing to the growing EV charging infrastructure can potentially be minimized by smart microgrids As EVs find wider acceptance with major advancements in high efficiency drivetrain and vehicle design it has become clear that there is a need for a system level understanding of energy storage and management in a microgrid environment Practical issues such as fleet management coordinated operation repurposing of batteries and environmental impact of recycling and disposal need to be carefully studied in the context of an ageing grid infrastructure This book explores such a perspective with contributions from leading experts on planning analysis optimization and management of electrified transportation and the transportation infrastructure The primary purpose of this book is to capture state of the art development in smart microgrid management with EV integration and their applications It also aims to identify potential research directions and technologies that will facilitate insight generation in various domains from smart homes to smart cities and within industry business and consumer applications We expect the book to serve as a reference for a larger audience including power system architects practitioners developers new researchers and graduate level students especially for emerging clean energy and transportation electrification sectors in the Middle East and Southeast Asia
