Trends and Issues in Global Tourism 2007 Roland Conrady, Martin Buck, 2007-03-24 As other industries the global travel and tourism industry has been facing immense challenges and highly visible upheaval since the beginning of the new millennium The International Tourism Exchange ITB Berlin the world's leading travel trade fair aims at pinpointing the most important challenges identifying the trends and offering a platform to solve pressing problems The ITB Convention Market Trends Innovations has developed into a center of excellence and a driving force for the global travel and tourism industry generating a much needed information platform This compilation unites the highlights of the convention in articles prepared by renowned professionals and scientists from the industry Readers may benefit from this comprehensive vision of the developments which are shaping the structure of the global tourism industry today and in the future This book is indispensable for tourism and travel professionals and well as for academics and students analyzing current global tourism and travel trends The first chapter takes up the issue of mega trends in society and in the economy and analyzes their effects on the tourism industry In highly developed countries overwhelming demographical change is underway Schröder and Widmann demonstrate how tourism businesses should adapt to the aging customer base *Sportswomen at the Olympics*, 2010-01-01 Do the global sports media continue to ignore and downplay female sporting success or is this invisibility changing Does the world's largest media event the Olympic Games which places sport at the centre of world attention also represent a media showcase for the achievements of female athletes This is the main focus of this book It explores women's printed media coverage during the 2004 Olympic Games and brings together the largest quantitative collection of content analyses of media coverage of a single event using the same methodology Expanding beyond research centred on the English speaking world it includes analyses of newspapers published in 14 languages and research teams from 18 countries including Norway Denmark Sweden United Kingdom France Belgium Germany Spain the Czech Republic Hungary Canada the United States of America Turkey China Japan South Korea South Africa and New Zealand Based on comparative analyses the book provides a current picture of the place of sportswomen in global media The comparative approach further informs and demonstrates how the methodology of content analysis can be used on printed media texts and its strengths and limitations when used across borders of language culture and nation With contributions from across Europe Asia Africa North America and Oceania *Sportswomen at the Olympics A Global Content Analysis of Newspaper Coverage* provides evidence of the ongoing gendered difference in sports media coverage and shows how media may play a global role in the transformation and reproduction of gender structures in sports *Science Fiction and Fantasy Literature, Vol 1* R. Reginald, 2010-09-01 *Science Fiction and Fantasy Literature A Checklist 1700 1974* Volume one of Two contains an Author Index Title Index Series Index Awards Index and the Ace and Belmont Doubles Index **Aviation in the Digital Age** Ruwantissa Abeyratne, 2020-06-25 All of the topics discussed in this book from sovereignty to cybercrime and from drones to the identification of passengers so are air traffic

services and aeronautical communications All of these aviation related aspects are addressed in a 75 year old treaty called the Chicago Convention and its Annexes which as this book argues needs to be reviewed with a focus on its relevance and applicability in connection with Moore s Law which posits that transistors in computer microchips double in speed power and performance every two years while the cost of computers is halved during the same period Firstly in terms of traditional territorial sovereignty we have arrived at a point where there is a concept of data sovereignty and ownership that raises issues of privacy Data transmission becomes ambivalent in terms of territorial sovereignty and the Westphalian model may not be the perfect answer Whether it be the manufacture of airplanes the transfer of data on individuals or the transmission of aeronautical and telecommunications information all have to be carried out in accordance with the same fundamental principle duty of care Against the backdrop of the relevant provisions of the Chicago Convention and its Annexes the detailed analysis presented here covers key areas such as megatrends AI and international law in the digital age blockchain and aviation drones aviation and telecommunications aviation and the Internet cybersecurity and digital identification of passengers privacy In turn the book suggests how we can best manage this transition
