computers and our snow shovels Taken together all of the relationships we have had have today and will have in the future attach us to our worlds in an admixture of pushes and pulls on our attention and our behavior Metaphorically it might visually look much like an intricate circular spider web with us individually stuck at the core We use the singular relationship here because we want to explore what it is that all relationships have in common relationship Relationships are sticky They are far easier to fall into than to escape from They are often demanding requiring our attention when we wanted to devote our attention elsewhere The drama of misplaced keys or a balky computer can take over our lives We have hopes for certain relationships We can be disappointed in how they turn out But most of the myriad relationships that affect our lives just sort of happen If they dont serve our purposes as we think we deserve we drop them A piece of clothing that just doesnt look right in the light can be dropped Thats something you cant do with your own baby You have a relationship with your body If youre rich you can get a remodeling job If youre not you may be stuck with the body youve got Some relationships bring us down Other relationships lift us up In this book you will learn how to create the kinds of relationships you need to get to where you want to go The relationship you have with yourself is key This book reveals to you how if you get that right most of the other relationships you live in and by will fall into place

The Concept of Service Quality in Commercial Practice Amelikeh Confidence E. N.,2020-07-30 Commercial Practice is the work done for the earning acquisition and ownership of existence and within existence What one acquires the one is said to own resulting in the application of ownership to anything at all acquirable including the slave however the slave is held in possession disowned and hence cannot be said to be owned We cannot accurately say that one owns a slave nor that a slave has owner when the slave is held disowned The disowned thing has no owner The application of ownership to the slave has brought difficulty in telling the relationship between parent and child husband and wife employer and employee and citizen and state for instance as a person being owned sounds as the person being a slave We have redeemed the reality of ownership There are things one can own and things one cannot own although acquirable therefore there are things one has the Right to acquire and things one has no Right to acquire If you cannot own it and you acquire it then you have stolen it rendering you a criminal as theft is a crime Learn Commercial Practice it is the legitimate method of acquiring and possessing and ownership
