The Virtual Campus Gerald C. Van Dusen,1997 The virtual campus is a metaphor for the electronic teaching learning and research environment created by the convergence of several relatively new technologies including but not restricted to the Internet World Wide Web computer mediated communication video conferencing multi media groupware video on demand desktop publishing intelligent tutoring systems and virtual reality The focus of this monograph is of necessity limited to changes occurring in higher education institutions that are committed to reform via technology A survey of the literature finds reform characterized by changes in teaching learning research and scholarly activity organizational culture and governance and finance Section 2 takes up teaching on the virtual campus and how institutional variables influence adoption of information technologies according to their particular missions and goals Section 3 on classroom learning contrasts traditional and virtual classrooms and describes the interface capabilities of various technologies Section 4 explores recent reconceptualizations of scholarship as well as new computer based technologies that are beginning to influence both the methods and substance of research Section 5 depicts efforts to reform both the bureaucratic and academic spheres of higher education institutions by applying principles of Total Quality Management Section 6 delineates some of the important new responsibilities of governing boards including monitoring regulatory legislation establishing a telecommunications policy and shepherding resources for technology The final section draws conclusions from the literature and makes recommendations for institutional planning and research Specifically the seven conclusions are 1 a paradigm shift can occur only in institutions committed to comprehensive reform 2 attempts to change the classroom focus from the sage on

the stage to collaborative learning are likely to fail without a substantial commitment to professional development 3 higher education will continue to be market driven requiring redoubled efforts to define academic productivity 4 new constituencies appear to be well served by a variety of available distance learning venues 5 the TQM movement has made impressive inroads in higher education administration however very little penetration has occurred when it most matters on the academic side of the institution 6 even as instructional use of technology rises institutional support for applications development has been dilatory and 7 the historic commitment to core values in traditional undergraduate education has wavered the same vacillation threatens to undermine general education requirements in electronically delivered certificate and degree programs Seven recommendations for beginning this process of integration include 1 create a venue where key stakeholders can analyze major technology issues and purchases 2 assert the value of technology based learning from a variety of research perspectives 3 establish quality standards for certificate and degree programs 4 avoid pitting traditionalists against technology enthusiasts 5 make collaboration and cooperation not reengineering and restructuring the new institutional buzz words 6 retain a strong commitment to adequate library staffing and funding and 7 prepare for success by creating the necessary support structures A glossary of terms is appended Contains 228 references AA [Sailing Into the Future](#) Association of College and Research Libraries. measuring waves in a ripple tank iopspark - Jan 29 2023

web demonstration a stroboscope makes it easier to see patterns of wave behaviour with continuous ripples in a ripple tank especially with ripples at higher frequencies apparatus and materials hand stroboscope ripple tank and accessories motor mounted on beam with beam support paper white health safety and technical notes

basic experiments with ripple tanks pdf mirror ellipse - Mar 19 2022

web this ripple tank experiment helps to show how a parallel beam is produced apparatus and materials for each group of students ripple tank and accessories copper wire heavy wooden rod rubber tube heavy technical notes the parabolic reflector can be made with rubber tubing to help curve and anchor the tube put heavy copper wire or solder

wave phenomena ripple tank experiments university of toronto - May 01 2023

web the ripple tank can be used to study almost all the wave properties reflection refraction interference and diffraction in addition to this the wave phase velocity can be investigated at different water depths and in the presence of obstacles of various shapes wave properties the wave speed

ripple tank mini physics learn physics - Aug 24 2022

web jan 25 2011 the ripple tank shows the crests and trough of the water wave a transverse wave from this you can deduce the wavelength frequency and period of the water wave since longitudinal waves can be modelled with a transverse wave you can deduce the motion of a longitudinal wave as well

diffraction in a ripple tank iopspark - Mar 31 2023

web this ripple tank experiment models the action of a diffraction grating apparatus and materials ripple tank and accessories barriers small barriers large power supply low voltage continuously variable motor mounted on beam with beam support light source compact health safety and technical notes

required practical measuring wave properties 6 1 6 aqa - Jun 21 2022

web experiment 1 water waves in a ripple tank aims of the experiment to measure frequency wavelength and wave speed by observing water waves in a ripple tank variables independent variable frequency f dependent variable wavelength λ control variables same depth of water same temperature of water

practical physics basic experiments with ripple tanks aapt - Oct 26 2022

web aug 16 2020 this resource contains a set of eight introductory experiments on wave reflections appropriate for use in high school and middle school use of the ripple tank can be a powerful tool to help students visualize wave behavior in general

virtual ripple tank phet contribution - Dec 28 2022

web oct 16 2010 description students will investigate wave properties speed in a medium reflection diffraction interference

using the phet virtual ripple tank subject physics level high school type lab duration

[analysis of interference patterns using a simplified ripple tank a](#) - Nov 26 2022

web sep 9 2021 thus the current study presents a comprehensive method for investigating the interference of water waves the study aims a to demonstrate the interaction of two coherent waves which creates interference patterns using a simplified ripple tank and b to analyse the interference of water waves in the ripple tank

ripple tank 3 1 5 cie igcse physics revision notes 2023 - May 21 2022

web investigating waves with a ripple tank ripple tanks are commonly used in experiments to demonstrate the following properties of water waves reflection at a plane surface refraction due to a change in speed caused by a change in depth diffraction due to a gap

reflection of a straight pulse by a barrier iopspark - Feb 27 2023

web this ripple tank experiment provides a good introduction to wave reflections students will see a pattern in the reflections more clearly with a simple straight pulse than they might with continuous straight ripples apparatus and materials for each group of students ripple tank and accessories barrier straight wooden rod

ripple tank wikipedia - Jul 03 2023

web a simple ripple tank in physics a ripple tank is a shallow glass tank of water used to demonstrate the basic properties of waves it is a specialized form of a wave tank the ripple tank is usually illuminated from above so that the light shines through the water

practical measuring waves in a ripple tank bbc - Sep 05 2023

web aim of the experiment to measure the frequency wavelength and speed of waves in a ripple tank method set up the ripple tank as shown in the diagram with about 5 cm depth of water

edexcel gcse physics save my exams - Apr 19 2022
