Three Realities:

Our New Human Consciousness Terry Sands,2011-05-12 Every few thousand years our human culture experiences a massive evolutionary transformation In the next few years our consciousness will change very rapidly and move us beyond anything we can presently imagine This change of consciousness is happening naturally to each of us now and it will affect every aspect of how we think how we live and how we love We are a culture in search of its spirit and this change of consciousness is evolutionarily next for humankind on this planet When the awareness opens one may search many avenues and attractions for truth and enlightenment and find the search lacking in result The next step may be the path of Self discovery But the direction on this path will not be given to us by a great teacher who comes down from the mountaintop with answers cast in stone but rather by lots of little great teachers who could be called pathfinders And to move into this new consciousness we will transform the mind and the way it works with new mental skills and mental technology Our success is inevitable The ease or difficulty with which we achieve this success is still in formation We will survive the transition physically The question is whether we will survive psychologically Psychological survival in this transition depends on only one thing Developing the ability and inner discipline to completely instantaneously unquestioningly and continuously adapt to change

Groundless Paths Karl Brunnholzl,2012-08-14 The *Abhisamayalamkara* summarizes all the topics in the vast body of the praj aparamita sutras Resembling a zip file it comes to life only through its Indian and Tibetan commentaries Together these texts not only discuss the hidden meaning of the praj aparamita sutras the paths and bhumis of sravakas pratyekabuddhas and bodhisattvas but also serve as contemplative manuals for the explicit topic of these sutras emptiness and how it is to be understood on the

progressive levels of realization of bodhisattvas Thus these texts describe what happens in the mind of a bodhisattva who meditates on emptiness making it a living experience from the beginner s stage up through buddhahood Groundless Paths contains the first in depth study of the Abhisamayalamkara the text studied most extensively in higher Tibetan Buddhist education and its commentaries from the perspective of the Nyingma School of Tibetan Buddhism This study consists mainly of translations of Maitreya s famous text and two commentaries on it by Patrul Rinpoche These are supplemented by three short texts on the paths and bhumis by the same author as well as extensive excerpts from commentaries by six other Nyingma masters including Mipham Rinpoche Thus this book helps close a long standing gap in the modern scholarship on the praj aparamita sutras and the literature on paths and bhumis in mahayana Buddhism Arya Maitreya s Ornament of Clear Realization with its Indian and Tibetan commentaries presents the complex dynamics of the path to liberation as a succession of realizations of the empty nature of all phenomena This presentation is a powerful antidote to whatever two dimensional views we might hold about spiritual experience and the journey to enlightenment

The Tao of Islam Sachiko Murata,1992-03-23 The Tao of Islam is a rich and diverse anthology of Islamic teachings on the nature of the relationships between God and the world the world and the human being and the human being and God Focusing on gender symbolism Sachiko Murata shows that Muslim authors frequently analyze the divine reality and its connections with the cosmic and human domains with a view toward a complementarity or polarity of principles that is analogous to the Chinese idea of yin yang Murata believes that the unity of Islamic thought is found not so much in the ideas discussed as in the types of relationships that are set up among realities She pays particular attention to the views of various figures commonly known as Sufis and philosophers since they approach these topics with a flexibility and subtlety not found in other schools of thought She translates several hundred pages most for the first time from more than thirty important Muslims including the Ikhwan al Safa Avicenna and Ibn al Arabi

Moral Sociology for a New Epoch Jose Perez Adan,2025-02-18 Modernity is in its final stages and we should embrace with enthusiasm its overcoming Moral sociology helps us to realize that we are dominated by so many anonymous powers and never have freedom and life itself been so threatened Never has the proposition of virtue personal and collective been so undermined of its objective value This book argues for morality over ethics for community over individualism for the desacralization of the state and the destatization of the church and for the need to equip ourselves with new economic paradigms that incorporate gift into the marketplace We support denuclearization the inviolability of the family and the revalorization of work We advocate for a skeptical democracy that allows us to see it as a process We review the dichotomies of limit and strangeness of self mastery and dependence of dear service and poverty and the need to understand ourselves as children to recover the levels of humanity that in our opinion we are losing Thus we propose a conscious and grateful rupture with our recent times to give birth to a new culture in which we can envision a future that is only written within the inner
