**Figures of the Migrant** Siobhan Brownlie, Rédouane Abouddahab, 2021-09-12 This volume seeks to investigate the representation of the migrant and migration in literary texts and the arts Through studies that examine works in a range of art forms novels theatre poetry creative non fiction documentary films and performance and video installations that evoke a variety of historical and trans national contexts the volume focuses on the

question of the roles of literature and the arts in representing migration An important issue considered is the extent to which artistic figuration can act as a counterpoint to social discourse on migrants that often involves stereotypes and reductive views The different contributions to the volume illustrate that literature and the arts can provide readers and viewers with a space for fluid knowledge production and affective expansion and that within that overarching function artistic works play three main roles with regard to representing migration undertaking a socio political and cultural critique presenting alternative views to stereotypes that highlight the singularity and complexity of the migrant and providing proposals for different futures
