Brady, 2012-04-01 In this first book length environmental history of the American Civil War Lisa M Brady argues that ideas about nature and the environment were central to the development and success of Union military strategy From the start of the war both sides had to contend with forces of nature even as they battled one another Northern soldiers encountered unfamiliar landscapes in the South that suggested to them an uncivilized society's failure to control nature Under the leadership of Ulysses S Grant William Tecumseh Sherman and Philip Sheridan the Union army increasingly targeted southern environments as the war dragged on Whether digging canals shooting livestock or dramatically attempting to divert the Mississippi River the Union aimed to assert mastery over nature by attacking the most potent aspect of southern identity and power agriculture Brady focuses on the siege of Vicksburg the 1864 Shenandoah Valley campaign marches through Georgia and the Carolinas and events along the Mississippi River to examine this strategy and its devastating physical and psychological impact Before the war many Americans believed in the

idea that nature must be conquered and subdued Brady shows how this perception changed during the war leading to a wider acceptance of wilderness Connecting environmental trauma with the onset of American preservation Brady pays particular attention to how these new ideas of wilderness can be seen in the creation of national battlefield memorial parks as unaltered spaces Deftly combining environmental and military history with cultural studies War upon the Land elucidates an intriguing largely unexplored side of the nation s greatest conflict **Selling Yellowstone** Mark Daniel Barringer,2002 For as long as they have existed the national parks have been the scene of some of the most intensive commercial activity in the American West Selling Yellowstone recounts the story of such activities in our oldest park from the 1870s through the 1960s It is the first book to examine critically the role of business in the development of America s national parks demonstrating how profit driven entrepreneurs shaped the physical landscape of what is generally perceived as unaltered wilderness Jacket *Sacred Symbols in Art* Elizabeth Edwards Goldsmith,1911 The History, Principles and Practice of Symbolism in Christian Art Frederick Edward Hulme,1892 The World's Empire J.
