Very Scary:

A Very Nervous Person's Guide to Horror Movies Mathias F. Clasen, 2021 Why your worst nightmares about watching horror movies are unfounded Films about chainsaw killers demonic possession and ghostly intruders make some of us scream with joy But while horror fans are attracted to movies designed to scare us others shudder already at the thought of the sweat drenched nightmares that terrifying movies often trigger The fear of sleepless nights and the widespread beliefs that horror movies can have negative psychological effects and display immorality make some of us very very nervous about them But should we be concerned In this book horror expert Mathias Clasen delves into the psychological science of horror cinema to bust some of the worst myths and correct the biggest misunderstandings surrounding the genre In short and highly readable chapters peppered with vivid anecdotes and examples he addresses the nervous person s most pressing questions What are the effects of horror films on our mental and physical health Why do they often cause nightmares Aren t horror movies immoral and a bad influence on children and adolescents Shouldn t we be concerned about what the current popularity of horror movies says about society and its values While media psychologists have demonstrated that horror films indeed have the potential to harm us Clasen reveals that the scientific evidence also contains a second story that is often overlooked horror movies can also help us confront and manage fear and often foster prosocial values [Creepy Archives](#)

The Anthropology of Intensity Paul Kockelman, 2022-05-19 What counts as too close for comfort How can an entire room suddenly feel restless at the imminence of a yet unknown occurrence And who decides whether or not we are already in an age of unliveable extremes The anthropology of intensity studies how humans encounter and communicate the continuous and gradable features of social

and environmental phenomena in everyday interactions Focusing on the last twenty years of life in a Mayan village in the cloud forests of Guatemala this book provides a natural history of intensity in exceedingly tense times through a careful analysis of ethnographic and linguistic evidence It uses intensity as a way to reframe Anthropology in the age of the Anthropocene and rethinks classic work in the formal linguistic tradition from a culture specific and context sensitive stance It is essential reading not only for anthropologists and linguists but also for ecologically oriented readers critical theorists and environmental scientists
