**Walter Crane's Picture-books** Walter Crane, 1895      **The Art of Walter Crane (Classic Reprint)** Paul George Konody, 2018-05-05 Excerpt from *The Art of Walter Crane* In the present volume the author has endeavoured to avoid this dangerous pitfall to keep an unbiassed mind and to temper his genuine admiration for the master with an alloy of perhaps unnecessarily severe criticism He feels the more justified in this method of proceeding as most of the master's faults have their mainspring in and are indeed the unavoidable outcome of his most characteristic merits It might perhaps be said that it is a little premature to publish a book of this nature whilst its subject is in the prime of life and may reasonably be expected to enrich the world with many more works of unflinching charm and beauty The answer to such an objection can only be that Walter Crane's mission is accomplished that his place in the history of art is definitely fixed and cannot be much affected by anything he may create in the future His greatness lies not so much in his artistic achievements as in his influence and this influence has become a historical fact About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that

**"Rethinking the Interior, c. 1867-1896"** Imogen Hart, 2017-07-05 From Aesthetes in Africa to the cultural history of the teapot, the essays in this collection contribute to scholarly debates across a wide range of disciplines. Addressing the question of whether eclectic relationships in Victorian decorative arts are actually self-conscious iconographic schemes or merely random juxtapositions of assorted objects, *Rethinking the Interior, c. 1867-1896* argues that no firm demarcation exists between the two movements examined here. In the process, the contributors explore a wide variety of interiors in locations as diverse as London, Cornwall, New England, and Tangiers. Analyzing spaces public and private, sacred and secular, the volume poses several historiographic challenges. Drawing on a wide range of feminist and queer theories, the book questions the identification of nineteenth-century interiors as exclusively female or family spaces. The collection also addresses the complex and temporary character of interiors and responds to the recent scholarly trend to return questions of feeling and embodied experience to the study of the decorative arts.
