White Paper:

DFID's performance in 2008-09 and the 2009 White Paper Great Britain: Parliament: House of Commons: International Development Committee, 2010-03-11 DFID is right to focus more resources on fragile states if global poverty reduction goals are to be met However this report highlights a number of concerns about DFID's capacity to meet this and other new policy directions set out in the 2009 White Paper Cm 7656 ISBN 9780101765626 based on analysis of the Department's performance in 2008-09 the Department's annual report 2008-09 published as HC 867 I II ISBN 9780102962154 Climate change another key White Paper focus area threatens progress on poverty reduction and will hit the poorest people first and hardest The outcome of the Copenhagen Conference in December 2009 was disappointing and real progress needs to be made before the next conference at the end of this year The White Paper also indicates that DFID will channel more funding through multilateral organisations including the EU the UN and the World Bank This offers the prospect of more coordinated delivery of aid but only if these bodies increase their effectiveness and their poverty focus The report also argues for speedier reform of the governance of the international financial institutions The recession has had a significant impact on developing countries It is estimated that an additional 90 million people will be affected by poverty as a combined result of the global food financial and fuel crises over the last few years Donors including the UK have responded and have sought to identify specific needs in developing countries though many donors are failing to meet the aid commitments they have already made

Soft Law in European Community Law Linda Senden,2004-09-28 This book offers the first systematic investigation of the phenomenon of soft law within the framework of the EC the first pillar of the EU and its use by the European Commission and Council of Ministers It

focusses upon how soft law fits into the Community legal system and how it is used and in particular how it relates to Community legislation Differentiation of the Community instruments including the instruments of soft law is often thought to enhance the effectiveness legitimacy and transparency of the Community This book asks whether soft law indeed provides a satisfactory alternative to legislation from this perspective and if so in what cases and under what conditions Furthermore the author asks to what extent the use of soft law implies good governance and throws fresh light on this very heterogenous phenomenon by looking at frequently used instruments in many different areas of Community law such as competition law state aid environment social policy etc in the process identifying their different characteristics aims functions and legal effects What emerges is that the conditions under which soft law is used may be problematic in relation to increasing the legitimacy effectiveness and transparency of Community action This is a work which will interest legal practitioners confronted with the use of soft law and the question of its possible legal effect in an increasing number of sectors and academics interested in the vexed question of how the increased use of soft law can be justified in a Community legal order built upon the rule of law It is also critical of developments taking place within the framework of the European Convention and the proposed European Constitution and goes beyond the immediate problems of soft law to touch upon issues such as competence legal protection division of powers between the EC and the Member States institutional balance lawmaking by the Community Courts the scope of Community legal principles and the influence of soft law on the progressive development of both Community and national law
