

Number of electoral votes by state

Electoral votes for the 2024 election are allocated to states based on the 2020 Census. Every state gets at least three votes: one for each senator, and one for each congressional district. The District of Columbia also gets three votes. There are 538 electoral votes in total, with a majority of 270 needed to elect a president.

All electoral votes go to the overall winner of the statewide popular vote, except in Maine and Nebraska where electoral votes are based on the winner of the popular vote in each congressional district and two additional votes go to the winner of the statewide popular vote.
