

The World's Minority Indigenous Peoples

While minority indigenous peoples comprise just 6% of the world's population, they possess 80% of the world's remaining biodiversity.

The World Bank defines Indigenous Peoples as "distinct social and cultural groups that share collective ancestral ties to the lands and natural resources where they live, occupy or from which they have been displaced."

Here's a look at the latest available population distribution of the estimated 476 million minority indigenous peoples around the world.
