Teaching Technologies In Libraries

Ida Arlene Joiner

Teaching Technologies In Libraries:

Teaching Technology in Libraries Carol Smallwood, Lura Sanborn, 2017-01-12 Libraries are charged with fostering new skills and capabilities a challenging task in an era of rapid technological change Developing new ways of teaching and learning within budget and time constraints is the key to keeping up to date Written by librarians this collection of new essays describes an array of technology outreach and instruction programs from the theoretical to the practical for public academic and school libraries based on case studies and discussions of methodology Content includes out of the box lessons outreach successes and technology instruction programs applicable to patrons and staff at public academic and school libraries Teaching Technologies in Libraries Linda Brew MacDonald, 1990 *Teaching with Technology* Joe Williams, Susan Goodwin, 2007-07-31 This practical book introduces readers to the current technology topics and issues facing today's academic instruction and reference librarians The book provides up to date overviews of cutting edge technologies offers an insight on current educational uses and applications of these new tools and discusses common problems and pitfalls librarians may encounter when incorporating current technologies into their instruction services Chapters are written by experienced practitioners providing detailed information on best practices and common pitfalls using today's technologies Topics include teaching with streaming video chat based virtual reference services wireless networking weblogs and course management software Describes concrete applications of technology for today's academic library instruction programs Discusses the academic librarian's role as both educator and technology innovator Evaluates new technologies from an instructional rather than a reference or access services viewpoint **Technology and the School Library** Odin L. Jurkowski, 2024 This book explores technology in K-12 schools and libraries covering information tools resources librarian classroom collaboration technology administration and pedagogical integration Tailored for educators and librarians it provides a concise yet comprehensive understanding **Partners in Literacy** Sondra Cuban, Larry Cuban, 2007 Why have libraries and schools both public institutions committed to community based learning adopted new technologies in dramatically different ways Exploring the differences in technology use between schools and libraries across the country the authors describe ways that these two institutions can collaborate to improve teaching and learning while building communities With a focus on literacy development they investigate how new technologies are implemented and the lessons that institutions can learn from one another Including case studies and surveys to illustrate concepts the book discusses The history and purposes of schools and libraries from the 1800s to the present Leadership and staffing issues related to technology development Differences in mission structural approaches to literacy and public expectations for schools and libraries The uses of technology in both institutions to create stronger communities **Technology for the School Librarian** William O. Scheeren, 2010-01-22 The world of the school librarian has changed significantly over the past ten years with the proliferation of technology into all phases of education this book attempts to address these issues What does a

school librarian need to know about technology Technology for the School Librarian Theory and Practice is an introduction to all aspects of technology in the school library and provides a starting point for further study of this wide ranging and critically important field The only book that addresses both the theoretical and the practical aspects of the subject Technology for the School Librarian is organized into 13 chapters describing the most vital topics in technology for school librarians Within these chapters school librarians whether practicing or prospective will be introduced to the practical aspects of technology in the school library and presented with a theoretical framework that will allow them to continue their research and learning Case studies facilitate understanding as do the study questions included with each chapter

Emerging Library Technologies Ida Arlene Joiner, 2018-08-16 Emerging Library Technologies is written for librarians information professionals teachers administrators researchers undergraduate graduate students and others who are interested in learning about some of the most popular emerging technologies in the media today such as artificial intelligence robotics drones driverless vehicles big data virtual augmented reality 3D printing and wearable technologies This valuable resource shows how they can be used in libraries and resource centers and how to get stakeholder buy in for implementing these technologies

Innovations in Science and Technology Libraries Rita Pellen, William Miller, 2014-06-17 Catch up with the many innovations now affecting sci tech libraries The twenty four chapters in Innovations in Science and Technology Libraries discuss the creation of digital collections e repositories personalized Web environments and discipline specific Web sites for students and researchers The book also explores the use of new technologies to improve document delivery and service provision as well as demonstrations of leadership by science librarians who are willing to take risks adapt to change control costs and collaborate with colleagues Here is just a fraction of the fascinating cases and important concepts highlighted in Innovations in Science and Technology Libraries the Drexel University Library s transition from print to an electronic only journal collection the benefits of adopting a just in time purchase on demand rather than a just in case acquisitions policy IntelliDochow it has raised the standard for document delivery worldwide and increased international recognition of CISTI how California State University Sacramento merged its science library into its central reference departmentan examination of the two year merging process the creation of branch libraries focused on electronic informationan engineering library at Kansas State University and an agriculture library at the University of Manitoba the impact of electronic information upon undergraduate science education literacy competencies in the sciencesand their implications for library instruction how the MIT libraries created and developed the Reference Vision system that now guides all of their new reference services the impact of learning communities upon library services recent additions that enhance the usefulness of the IEEE Xplore online delivery system Innovations in Science and Technology Libraries will bring you up to date on the latest developments sharpen your awareness of new concepts and techniques in sci tech librarianship and help your library stay abreast of important changes in this ever evolving field Make it a part of your professional reference

collection today New Methods of Teaching and Learning in Libraries Ann Whitney Gleason,2016-10-20 New Methods of Teaching and Learning in Libraries is a one stop introduction to the role of technology in teaching and learning in libraries Emerging models of library instruction and library support of instruction will be presented Increasingly librarians are called upon to partner with educational faculty and community members to deliver content and support innovative educational initiatives Since libraries reach across academic disciplines and provide resources for the greater community they are uniquely positioned to provide services and technologies that are available to many bringing innovation out of silos and facilitating innovation in the community Chapters covered include Active Learning in Collaborative Spaces Creating Library Spaces that Foster Creation Teaching Beyond the Library Walls Teaching Skills for Career Success Multimedia in Library Education The Future of Mobile Libraries Teaching and Learning in the Library of the Future Innovative programs will be highlighted and practical examples will be provided **The School Librarian's Technology Playbook** Stacy Brown, Using concrete examples The School Librarian s Technology Playbook offers strategies for school librarians to initiate and support innovative practices throughout their school community The role of school librarians has evolved no longer do they primarily support teachers with reading and literacy resources Many librarians now support teachers in integrating technology tools and innovative teaching practices in their classrooms At her school author and learning coordinator Stacy Brown has pioneered the transition to innovation and technology use in the classroom In The School Librarian s Technology Playbook she showcases different technology tools and innovative strategies that can be incorporated into the classroom such as 3D printing augmented reality green screen applications gamification coding makerEd and more She details the many ways in which school librarians can support teachers as they implement these new practices into their curriculum School librarians will learn how to collaborate with teachers and how to empower them to step outside of their comfort zones to try new tools and teaching methods Readers of this book will also learn how to support teachers as the technology continues to change in this dynamic educational landscape **Exploring the Digital Library** Kay Johnson,Elaine Magusin,2009-10-01 Exploring the Digital Library a volume in The Jossey Bass Online Teaching and Learning series addresses the key issue of library services for faculty and their students in the online learning environment Written by librarians at Athabasca University a leading institution in distance education this book shows how faculty can effectively use digital libraries in their day to day work and in the design of electronic courses Exploring the Digital Library is filled with information ideas and Discusses how information and communication technologies are transforming scholarship communication Provides suggestions for integrating digital libraries into teaching and course development Describes approaches to promoting information literacy skills and integrating these skills across the curriculum Outlines the skills and knowledge required in digital library use Suggests opportunities for faculty and librarians to collaborate in the online educational environment Teaching Technology D. Scott Brandt,2002 Answering practical questions on designing training programs for library users this manual

introduces concepts and techniques for creating technology learning courses sessions workshops and modules in libraries It shows how to gather and analyze information on user needs how to articulate the mission of the training how to construct individual training courses and how to measure their effectiveness Teaching the use of the Internet and the Web are emphasized Sample technology training materials and handouts from real programs are included Brandt is professor of library science and technology training librarian at the Purdue University Libraries Annotation copyrighted by Book News Inc Portland OR
