

What is formative feedback?

Formative feedback is feedback given to students during the learning process.

- give evidence of where the learner is up their (strengths) and areas for improvement to the individual learner often
- explain the activity and learning goal
- give students an idea of how the teacher can help progress towards that goal

Formative feedback should be given regularly and often by the teacher or peer and self

Formative feedback should be given at the appropriate time - activities should be given to the learners while they are still open to the feedback

Formative feedback should be given in a way that is specific and helpful for the learner to improve their learning

How might formative feedback be delivered?

Formative feedback types to use:

When teachers:

- regularly give oral feedback to students during the lesson
- use the form of evidence or goals

Use the written form of feedback to give an idea of the activities against the completed learning activity

Written feedback can take the form of a sheet or the journal, depending on the learner's needs. You can replace this part of the work.

When using written feedback it is important to provide the feedback to the learner in a way that is clear and helpful to the learner

Written feedback should be given in a way that is clear and helpful to the learner and should be given often

Steps For Guidance:

Steps for Guidance Peter Masters, 1995-01-01 The subject of how to find God's guidance has become controversial. Some say it comes by dreams, visions, and words of knowledge. Others say that God does not have a specific plan for His people but allows them to take their own decisions as long as they do so in a wise and moral way. By contrast with these ideas, this book presents from Scripture the time-honoured view that Christians must seek God's will in all the major decisions of life. The author outlines six biblical steps for finding God's will, giving special attention to key areas such as courtship and marriage, possessions, and leisure activities. Under what circumstances may Christians seek advancement in career and wealth? Does the Lord determine which church fellowship a believer should join? When is it wrong to leave a church, and when is it right? Clear biblical answers are given.

PHARMACEUTICAL PHD THESIS WRITING AND CONDUCTING THE RESEARCH STEP-BY-STEP GUIDANCE DR PATHAN AZHER KHAN, Payal Jayendra Badole, SWARUPA MOHAN WANOLE, 2024-06-13 This book offers extensive and valuable advice for researchers starting with pharmaceutical studies and doctoral dissertation writing. The contributors provide precise, detailed instructions covering every phase of the research process, from choosing a topic to sharing findings, because they know the intricacies and difficulties that come with it. Essential topics covered in the book include writing a professional thesis, conducting literature reviews, planning experimental methods, and guaranteeing ethical human and animal research procedures. The book promises to provide researchers with the information and abilities required to succeed academically and professionally in the pharmaceutical sciences through helpful guidance, software tool recommendations, and communication techniques.

Summary of the book: This thorough manual is vital for researchers since it covers every pharmaceutical research and thesis composing stage. It starts with methods for choosing a study topic that is both possible and relevant. Key areas of exploration are identified by utilizing resources such as YouTube, LinkedIn, published papers, and reviews. The book leads users through creating a synopsis and offers precise step-by-step guidance on successfully communicating your research. Essential phases of carrying out an exhaustive literature study are addressed, guaranteeing that you establish a firm basis by examining current material and pinpointing deficiencies. After that, the book moves on to planning and carrying out experiments, emphasising the significance of physicochemical characterisation, drug and excipient compatibility, and formulation development. It emphasises using QbD principles to optimise and evaluate various dosage forms alongside in vitro studies. Practical aspects of conducting animal and human studies ethically and effectively are addressed, followed by guidance on writing a compelling thesis. The book underscores the significance of professional writing in achieving a doctoral certificate and provides tips for image preparation crucial for thesis writing. It also discusses various statistical drug design and research writing software tools. Finally, the guide prepares you for defending your thesis and offers advice on publishing and disseminating your findings to ensure your research reaches a broader audience.
