question will be studied by historians hundreds of years in the future but an understanding of progressive prejudice is essential to this inquiry This book takes a step back and contextualizes Trump s historical electoral victory through the lens of an underdiscussed culturally destructive force This force the devouring mother is the archetype of female predation It is personified on the political left in modern feminism and hides behind compassion victimhood and presumed moral purity Combating this cultural destruction through a radical acceptance of individual accountability is essential to retaining our freedoms and fighting for equality Corbly an author attorney and poet explores the final taboo female perpetrated violence through a provocative series of autobiographical and cultural essays Through these essays Corbly elucidates how progressive beliefs and practices assume the moral superiority of women while marginalizing and socially destroying the lives of individuals who live under the weight of female perpetrated abuse      *Gypsy's Sowing and Reaping* Elizabeth Stuart Phelps, 1874
