Stitch In Time:

A Stitch in Time Frederick H. Abernathy, John T. Dunlop, Janice H. Hammond, David Weil, 1999-07-29 The apparel and textile industries have always been at the mercy of rapidly changing styles and fickle customers who want the latest designs while they are still in fashion The result for these businesses often forced to forecast sales and order from suppliers with scant information about volatile demand is a history of stock shortages high inventories and costly markdowns But as the authors explain in *A Stitch in Time* technological advances in the 1980s paved the way for a new concept in retailing lean retailing Pioneered by companies like WAL MART lean retailing has reshaped the way that products are ordered virtually eliminating delays from distribution center to sales rack by drawing on sales data captured electronically at the checkout counter Armed with up to the minute data about colors sizes styles and geographic sales apparel and textile companies now must be able to respond rapidly to real time orders efficiently based on new approaches to distributing merchandise forecasting planning organizing production and managing supplier relations *A Stitch in Time* shows that even in the face of burgeoning product proliferation companies that successfully adapt to the world of lean retailing can reduce inventory risk reduce costs and increase profitability while improving their responsiveness to the ever changing tastes of customers Based on the success of these practices in the apparel industry lean retailing practices are propagating through a growing number of consumer product industries A richly detailed and resonant account *A Stitch in Time* brilliantly captures both the history and future of the retail apparel textile channel and offers bold insights on the changes and challenges facing retailers and manufacturers in all segments of our rapidly changing economy

A Stitch in Time Andrew J. Robinson, 2000-05-01 An unique and intense tale following Elim Garak as he attempts to stitch the ravaged society of Cardassia back together For nearly a decade Garak has longed for just one thing to go home Exiled on a space station surrounded by aliens who loathe and distrust him going back to Cardassia has been Garak s one dream Now finally he is home But home is a world whose landscape is filled with death and destruction Desperation and dust are constant companions and luxury is a glass of clean water and a warm place to sleep Ironically it is a letter from one of the aliens on that space station Dr Julian Bashir that inspires Garak to look at the fabric of his life Elim Garak has been a student a gardener a spy an exile a tailor even a liberator It is a life that was charted by the forces of Cardassian society with very little understanding of the person and even less compassion But it is the tailor that understands who Elim Garak was and what he could be It is the tailor who sees the ruined fabric of Cardassia and who knows how to bring this ravaged society back together This is strange because a tailor is the one thing Garak never wanted to be But it is the tailor whom both Cardassia and Elim Garak need It is the tailor who can put the pieces together who can take a stitch in time
