**Stranger in the Mirror** Robert Levine,2019-02-07 Who are we Where is the boundary between us and everything else Are we all multiple personalities And how can we control who we become From distinguished psychologist Robert Levine comes this provocative and entertaining scientific exploration of the most personal and important of all landscapes the physical and psychological entity we call our self Using a combination of case studies and cutting edge research in psychology biology neuroscience virtual reality and many other fields Levine challenges cherished beliefs about the unity and stability of the self but also suggests that we are more capable of change than we know Transformation Levine shows is the human condition at virtually every level Physically our cells are unrecognizable from one moment to the next Cognitively our self perceptions are equally changeable A single glitch can make us lose track of a body part or our entire body or to confuse our very self with that of another person Psychologically we switch back and forth like quicksilver

between incongruent sometimes adversarial sub selves Socially we appear to be little more than an ever changing troupe of actors And culturally the boundaries of the self vary wildly around the world from the confines of one s body to an entire village The self in short is a fiction vague arbitrary and utterly intangible But it is also interminably fluid And this unleashes a world of potential Engaging informative and ultimately liberating Stranger in the Mirror will change forever how you think about your self and what you might become

Smith,2015-05-10 What harm could possibly come from reading a book Hundreds of years ago in the land of Renatus a prophecy containing an ominous prediction for the distant future was recorded and hidden in six books These books were passed down through the generations their true nature unknown even to their inherited owners Now Nerissa the Heiress to the throne of Chiyo prepares for the annual masquerade unaware that one of the books has been discovered and an urgent warning of an impending attack is on its way to the capitol A chance encounter and an unexpected rescue by a mysterious man alters the course of Nerissa s future and reveals that the secrets of the past are just beginning to be uncovered

**The Stranger in the Mirror** Jane Shilling,2011 Middle age took Jane Shilling by surprise She hadn t seen it coming and she certainly wasn t ready for it Must she accept that middle age is the beginning of the end or is there one great adventure still to be grabbed Her sense of hope and excitement seems at odds with her contemporaries resolute denial or rueful resignation in the face of middle age And what of the strange conflicting attitudes that surround the public perception of middle aged women This is one woman s attempt to understand what middle age means for her and whether as a new generation of women turns 50 some kind of revolution is under way Back cover
