Survival And Profit In Rural Java:

Survival and Profit in Rural Java Sven Cederroth,1995 The shift from communalism to individualism in rural Java has had many effects including the creation of a landless class of people expelled from agriculture and the rise of a rural middle class In this work Cederroth aims to examine contemporary changes affecting all strata of rural Javanese society While the focus is primarily on economic change cultural and political questions are also brought into consideration **The Java that Never was** Hans Antlöv,Jörgen Hellman,2005 This book is about how cultures and societies on Java over the past century have been perceived and socially constructed by scholars inside and outside of Indonesia It is a reflective book how on the one hand academic theories have shaped our view of Java and on the other hand how the study of Java has influenced theoretical developments within a number of disciplines including anthropology development studies religious studies political science gender studies and the arts BOOK JACKET *The Politics of Post-Suharto Indonesia* Adam Schwarz,Jonathan Paris,1999 This book responds to the critical need of policymakers practitioners and scholars for current research on Indonesia **Tournaments of Power** Tor Aase,2017-05-15 Thirty years ago modernization theory contended that notions of honor would become obsolete in modern democracies Being an archaic remnant of our pre modern past honor would be substituted by dignity under modern conditions When honor does emerge as a valid social theme in modern society as it sometimes does during court hearings in gang fights and in violent reactions to insult it is often ascribed to immigration from pre modern cultures where honor still matters in social life Thus honor becomes part of the cultural baggage that is transferred to the host country through migration However the fact that highly modern social formations like MC gangs are also obsessed with honor seriously questions the validity of classical modernization theories It seems that honor is not just a pre modern weed in a modern garden of dignity but an integral part of modernity Since honor emerges under pre modern as well as under modern conditions it is relevant to ask under which circumstances it becomes a theme in interaction Blurring the distinction between the modern and the pre modern in this manner allows us to ask what honor is really all about Containing a wealth of international contributions from Scandinavia USA Mexico Kurdistan Indonesia Pakistan Sri Lanka and Japan Tournaments of Power provides first hand ethnographic accounts and important answers to these vital questions **More than the Soil** Jonathan Rigg,2014-09-25 More than the Soil focuses on the social cultural economic and technological processes that have transformed rural areas of Southeast Asia The underlying premise is that rural lives and livelihoods in this region have undergone fundamental change No longer can we assume that rural livelihoods are founded on agriculture nor can we assume that people envisage their futures in terms of farming The inter penetration of the rural and urban and the degree to which rural people migrate between rural and urban areas and shift from agriculture to non agriculture raises fundamental questions about how we conceptualise the rural Southeast Asia and the households to be found there ISCS 2020 Hipolitus Kristoforus Kewuel ,Hatib Abdul Kadir ,Nindyo Budi Kumoro,2021-06-09 We proudly

present the proceedings of 1st International Seminar on Cultural Sciences 2020 ISCS 2020 It focuses on the relation of gender indigenous people environment religion etc The issue of culture and development is important today especially in the time of Covid 19 not only globally but also Indonesia nationally to the local level There are several important issues relating to this both institutionally and the relationships between individuals and groups in supporting the agenda of sustainable development More than 75 manuscripts were presented at this conference with around 33 of them selected to be published in proceedings We hope by this conference discussions on the importance of culture and development will increasingly become an important concern together and bring better response from the government and social relations for development

Civil Islam Robert W. Hefner, 2011-05-21 Civil Islam tells the story of Islam and democratization in Indonesia the world's largest Muslim nation Challenging stereotypes of Islam as antagonistic to democracy this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond Democratic in the early 1950s and with rich precedents for tolerance and civility Indonesia succumbed to violence In 1965 Muslim parties were drawn into the slaughter of half a million communists In the aftermath of this bloodshed a New Order regime came to power suppressing democratic forces and instituting dictatorial controls that held for decades Yet from this maelstrom of violence repressed by the state and denounced by conservative Muslims an Islamic democracy movement emerged strengthened and played a central role in the 1998 overthrow of the Soeharto regime In 1999 Muslim leader Abdurrahman Wahid was elected President of a reformist civilian government In explaining how this achievement was possible Robert Hefner emphasizes the importance of civil institutions and public civility but argues that neither democracy nor civil society is possible without a civilized state Against portrayals of Islam as inherently antipluralist and undemocratic he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state mobilized religiously ecumenical support promoted women's rights and championed democratic ideals This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism and places Indonesia at the center of our efforts to understand what makes democracy work **Living**

with Transition in Laos Jonathan Rigg, 2012-10-12 Laos the Lao People's Democratic Republic is one of the least understood and studied countries of Asia Its development trajectory is also one of the most interesting as it moves from state or perhaps more appropriately subsistence to market Based on extensive original research this book assesses how economic transition and marketisation are being translated into progress or not at the local level and at the resulting impact on poverty inequality and livelihoods It concludes that the process of transition in fact contributes to the growth of poverty for some people and shows how people manage to cope in very unfavourable circumstances **THE JOURNAL OF ASIAN**
