

SURVIVING AIDS

THE MANY STORIES
OF SURVIVAL IN OUR
TWENTY-SIX YEAR
BATTLE AGAINST
HIV/AIDS

A most unconventional book, but one
that might just help you in your battles.

DAVID W. DRIVER

Surviving Aids

Surviving Aids:

Surviving Aids David W. Driver, 2016-10-28 Surviving AIDS involves making all the right moves and even then your life is at risk David W Driver knows that well two years after getting married to his wife Kari Ann he discovered that not only did she have HIV but she was suffering from full blown AIDS The disease came on quickly First she began to experience numbness in her right hand fingers and mouth and then the numbness spread to her entire right arm Shortly after being diagnosed she came down with pneumonia usually a very deadly illness in the AIDS community but she left the hospital a relatively healthy woman Then came the PML disease that took her life while she was at home David was relieved when his blood test for HIV came back negative but his young daughter Jordyn was not so lucky She was diagnosed as having the HIV virus and was expected to live only several more years Twenty six years later Jordyn is enjoying the best health she has ever had thanks to the proper medical treatment Join David as he shares a scary and inspirational story of survival that can help others going through a similar journey

Surviving HIV/AIDS in the Inner City Sabrina Marie Chase, 2011 *Surviving HIV/AIDS in the Inner City* explores the survival strategies of poor HIV positive Puerto Rican women by asking four key questions Given their limited resources how did they manage an illness as serious as HIV/AIDS Did they look for alternatives to conventional medical treatment Did the challenges they faced deprive them of self determination or could they help themselves and each other What can we learn from these resourceful women Through an exploration of life and death among these resourceful women the book provides the groundwork for inciting positive change in the U S

Surviving AIDS Michael Callen, 1990 Stories including his own of long term survivors of AIDS

The AIDS Generation Perry N. Halkitis, 2014 *The AIDS Generation* Stories of Survival and Resilience takes readers on the real life journeys of gay men who were infected with HIV as young men and have survived to enter middle age The book examines the tumultuous life paths of these men and the strategies they used to survive the epidemic

The Sounds of Furious Living Matthew Kelly, 2023-10-13 Four decades have passed since reports of a mysterious gay cancer first appeared in US newspapers In the ensuing years the pandemic that would come to be called AIDS changed the world in innumerable ways It also gave rise to one of the late twentieth century's largest health based empowerment movements Scholars across diverse traditions have documented the rise of the AIDS activist movement chronicling the impassioned echoes of protestors who took to the streets to demand drugs into bodies And yet not all activism creates echoes Included among the ranks of 1980s and 1990s era AIDS activists were individuals whose expressions of empowerment differed markedly from those demanding open access to mainstream pharmaceutical agents Largely forgotten today this activist tradition was comprised of individuals who embraced unorthodox approaches for conceptualizing and treating their condition Rejecting biomedical expertise they shared alternative clinical paradigms created underground networks for distributing unorthodox nostrums and endorsed etiological models that challenged the association between HIV and AIDS The theatre of their protests was not the streets of New York City's

Greenwich Village but rather their bodies And their language was not the riotous chants of public demonstration but the often invisible embrace of contrarian systems for defining and treating their disease The Sounds of Furious Living seeks to understand the AIDS activist tradition identifying the historical currents out of which it arose Embracing a patient centered social historical lens it traces historic shifts in popular understanding of health and perceptions of biomedicine through the nineteenth and twentieth centuries to explain the lasting appeal of unorthodox health activism into the modern era In asking how unorthodox health activism flourished during the twentieth century s last major pandemic Kelly also seeks to inform our understanding of resistance to biomedical authority in the setting of the twenty first century s first major pandemic COVID 19 As a deeply researched portrait of distrust and disenchantment The Sounds of Furious Living helps explain the persistence of movements that challenge biomedicine s authority well into a century marked by biomedical innovation while simultaneously posing important questions regarding the meaning and metrics of patient empowerment in clinical practice

Love Don't Need a Reason Matthew J. Jones, 2020 From a stage erected in front of the US Capitol on April 25 1993 Michael Callen surveyed the throng an estimated one million people stretched across the National Mall in the largest public demonstration of queer political solidarity in history What a sight he told the crowd his earnest Midwestern twang reverberating through loudspeakers You re a sight for sore eyes Being gay is the greatest gift I have ever been given and I don t care who knows about it He then launched into a gorgeous rendition of Love Don t Need a Reason the AIDS anthem he composed with Marsha Malamet and the late Peter Allen As Callen finished singing people stood cheering and flashing the familiar American Sign Language symbol for I Love You For they knew the song s sentiment rang true for Callen who had recently announced his retirement from music and activism after a living for more than a decade with what was then called full blown AIDS After the March on Washington Callen returned to his recently adopted West Coast home Los Angeles In the ensuing months his health rapidly declined and on 27 December 1993 Callen died of AIDS related pulmonary Kaposi s sarcoma Love Don t Need a Reason focuses on Callen s most important and lasting legacy his music A witness to the overlooked last years of Gay Liberation and a major figure in the early years of the AIDS crisis Michael Callen chronicled these experiences in song A community organizer activist author and architect of the AIDS self empowerment movement he literally changed the way we have sex in an epidemic when he co authored one of the first safe sex guides in 1983 A gifted singer songwriter and performer he also made gay music for gay people and used music to educate and empower people with AIDS Listening again to his music allows us to hear the shifting dynamics of American families changing notions of masculinity gay migration to urban areas the sexual politics of Gay Liberation and HIV AIDS activism Using extensive archival materials and newly conducted oral history interviews with Callen s friends family and fellow musicians Matthew J Jones reintroduces Callen to the history of LGBTQIA music and places Callen s music at the center of his important activist work *Fierce Medicines, Fragile Socialities* Dominik Mattes, 2019-08-01 Set in Tanga a city on the Tanzanian Swahili coast

Dominik Mattes examines the implementation of antiretroviral HIV treatment ART in the area exploring the manifold infrastructural and social fragilities of treatment provision in public HIV clinics as well as patients multi layered struggles of coming to terms with ART in their everyday lives Based on extensive ethnographic fieldwork the book shows that notwithstanding the massive rollout of ART providing treatment and living a life with HIV in settings like Tanga continue to entail social economic and moral challenges and long term uncertainties which contradict the global rhetoric of the normalization of HIV

AIDS Gerald L. Mandell, Donna Mildvan, 1997 This text aids in identifying unique or atypical manifestations of HIV infections more easily and treating them more effectively The 2nd Edition of this outstanding atlas examines the impact of HIV on a full range of body systems in men women and children Integrates advances in the understanding of pathogenesis as well as developments in protease inhibitors

After the Cure Martin A. Levin, Mary Bryna Sanger, 2000 Envisioning a day in which there actually is an effective AIDS vaccine Levin political science Brandeis U and Sanger urban policy analysis New School U foresee significant distribution economic and political impediments to the successful inoculation of the United States population They review a number of large scale public health initiatives and draw conclusions about how to best implement the management of an AIDS cure Annotation copyrighted by Book News Inc Portland OR

Holding on Alyson O'Daniel, 2016 In *Holding On* anthropologist Alyson O Daniel analyzes the abstract debates about health policy for the sickest and most vulnerable Americans as well as the services designated to help them by taking readers into the daily lives of poor African American women living with HIV at the advent of the 2006 Treatment Modernization Act At a time when social support resources were in decline and publicly funded HIV AIDS care programs were being re prioritized women s daily struggles with chronic poverty drug addiction mental health and neighborhood violence influenced women s lives in sometimes unexpected ways An ethnographic portrait of HIV positive black women and their interaction with the U S healthcare system *Holding On* reveals how gradients of poverty and social difference shape women s health care outcomes and by extension women s experience of health policy reform Set among the realities of poverty addiction incarceration and mental illness the case studies in *Holding On* illustrate how subtle details of daily life affect health and how overlooking them when formulating public health policy has fostered social inequality anew and undermined health in a variety of ways

AIDS Patient Care, 1995 *A Grassroots History of the HIV/AIDS Epidemic in North America* James Gillett, 2011 This book provides a comprehensive history of the HIV AIDS epidemic in North America with particular emphasis on the role of HIV AIDS activists and organizations The author is a professor of sociology
