*Tracking The Predator* Sandra C. Johnston, 2004-06-01 Webster Brunswick chairman and owner of the Elko Airlines was forced to sit in the business section on his way to New York from Miami after a successful conference in Columbia Once airborne he met flight attendant Rita Turner who was on her maiden flight Webster fell in love and vowed to follow her no matter where During turbulence he helped Rita with the carts and with storing away the trays because he could see that she was frightened While chatting with her to ease her fears he found out that Rita had a connecting flight to Israel Isn't that a coincidence he asked her That's where I too am heading Once landed in New York he called on his vice president Chester Danbury to get him on the same flight to Israel Boarding the flight he requested the business section knowing Rita was stationed there In the meantime Chester called on Henry Abbot a former cop living in Israel to alert him that Webster would arrive Everyone knew Webster because he was a well known and respected figure in Israel While planning how he could propose to Rita he was kidnapped but since he was always guarded by Abbot's people they soon found him He learned of the problems at home and of how his lawyer and vice president tried to take away his airline by hooking themselves up with the ringleader of the Mafia Abbot advised Webster to fly back on a secret mission to meet with two detective agencies the Marc Cummings Agency and the W W Investigative Services Both agencies agreed to help Webster and private detective Laura Marie Winslow faced one of the most puzzling assignments of her career

Birdscapes, 2003 *The New Face of War* Bruce D. Berkowitz, 2010-05-11 As American and coalition troops fight the first battles of this new century from Afghanistan to Yemen to the Philippines to Iraq they do so in ways never before seen Until recently information war was but one piece of a puzzle more than a sideshow in war but far less than the sum total of the game Today however we find information war revolutionizing combat from top to bottom Gone are the advantages of fortified positions nothing is impregnable any longer Gone is the reason to create an overwhelming mass of troops now troop concentrations merely present easier targets Instead stealth swarming and zapping precision strikes on individuals or equipment are the order of the day based on superior information and lightning fast decision making In many ways modern warfare is information warfare Bruce Berkowitz's explanation of how information war revolutionized combat and what it means for our soldiers could not be better timed As Western forces wage war against terrorists and their supporters in actions large and small on several continents *The New Face of War* explains how they fight and how they will win or lose There are four key dynamics to the new warfare asymmetric threats in which even the strongest armies may suffer from at least one Achilles heel information technology competition in which advantages in computers and communications are crucial the race of decision cycles in which the first opponent to process and react to information effectively is almost certain to win and network organization in which fluid arrays of combat forces can spontaneously organize in multiple ways to fight any

given opponent at any time America's use of networked elite ground forces in combination with precision guided bombing from manned and unmanned flyers turned Afghanistan from a Soviet graveyard into a lopsided field of American victory Yet we are not invulnerable and the same technology that we used in Kuwait in 1991 is now available to anyone with a credit card and access to the Internet Al Qaeda is adept in the new model of war and has searched long and hard for weaknesses in our defenses Will we be able to stay ahead of its thinking In Iraq Saddam's army is in no position to defeat its enemies but could it defend Baghdad As the world anxiously considers these and other questions of modern war Bruce Berkowitz offers many answers and a framework for understanding combat that will never again resemble the days of massive marches on fortress like positions The New Face of War is a crucial guidebook for reading the headlines from across our troubled planet
