World War II Armoured Fighting Vehicles:

Modelling US World War II Armoured Fighting Vehicles Tom Cole, 2022-03-21 Aimed at military model makers and wargamers who are interested in the armoured fighting vehicles of the United States as used throughout World War II this book follows on from Modelling British World War II Armoured Vehicles by the same author The book places its emphasis on US Army and US Marine Corps AFVs modelled mainly in 1/72 and 1/48 scales in a deliberate departure from the more popular 1/35 scale to encourage and inspire model makers who are new to or less familiar with these scales Illustrated with over 270 colour photos this book features every major US AFV used in World War II with many models shown in various stages of construction and paintings It presents step by step guides demonstrating the painting techniques appropriate for different scales and includes an additional section showing how to paint wargames models There is also a review of how the USA developed tanks and other armoured vehicles from the interwar period through to the end of World War II This

fascinating story will help model makers and wargamers give the vehicles they build an historical context **World War Two Armoured Fighting Vehicles** George Forty, 1995-05-01 The Armoured Fighting Vehicle AFV played a major role in World War II The artillery found it necessary to mechanise some of its field pieces Armoured cars were called upon to carry out tasks in addition to reconnaissance Tank destroyers were designed to seek and destroy enemy armour Add to this fascinating array such oddities as speedy oversnow Aerosans armoured fast sledges deployed by the Red Army to enormous siege guns weighing over 100 tons to small remotely controlled and tracked demolition vehicles only six feet in length to the massive and powerfully equipped armoured trains deployed by the Soviet Union and Germany Hungarian Armoured Fighting Vehicles in the Second World War Eduardo Manuel Gil Martínez, 2019-12-27 The actions of the German armoured forces during the Second World War is well known What has not yet been so well told are the actions of the armoured forces from Germany's allies While it is true that their performance was generally quite secondary in comparison to the Reich the actions of the Hungarian armoured forces should be highlighted Hungary not only managed to organize its armoured forces but developed its own military industry that was able to supply weapons and equipment to its troops The Hungarian military was able to produce all kinds of weapons vehicles and armoured vehicles although they were generally under gunned and under armoured This book rescues Hungary's participation during the Second World War from oblivion through the use of superb photographs which take the reader from the beginning of the USSR campaign and the conquest of Soviet lands before ending with the bloody battles to avoid the Soviet and Romanian advance into Hungary the Siege of Budapest and the last clashes in Austrian and Slovenian territory before the army's unconditional surrender The author highlights the bravery and courage of these men as well as the terrible fate of the Hungarian armoured forces when the Soviet Army invaded Hungary
