## **Songs Without Notes:**

**Songs Without Notes** Lewis Morris, 1895      Songs without Words (Complete) Felix Mendelssohn, Maurice Hinson, These 48 pieces were composed over a period of two decades beginning in 1832 and published in eight groups of six each. Many of these songs were dedicated to the women in Mendelssohn's life and reflect the sunniest qualities of his melodiousness, spontaneity and invention. Maurice Hinson has skillfully researched and edited these works back to their original form and provides a very informative introduction which includes many detailed suggestions for a stylistic interpretation and performance as well as biographical information on the composer's life.

**The Easiest Songbook. 58 Simple Songs without Musical Notes for Boomwhackers®, Bells, Chimes, Pipes** Helen Winter. We call this series I don't read music since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching which is easier and more enjoyable. This book includes 58 familiar and easy-to-play folk songs and melodies. Each song here is written with color circles and letter notes inside. All songs have been simplified and transposed for one octave. Since this book is aimed at the absolute beginner without any knowledge of reading music, we do not use here the classical music staff and do not show the note duration. You can experiment with the duration on your own. If you have very little music experience, playing by note can be difficult. It is easier to follow color-coded circles with note letters. By simply following the color circles, you will sound like an experienced musician. We use here the Boomwhackers color system commonly used by American music teachers. We call this series I don't read music since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching which is easier and more enjoyable. Our simple method using circles as an aid allows the flexibility that existed in traditional ways of teaching. We recommend finding each of these songs

on YouTube and listening to the rhythm before beginning to play Our sheet music is only a guide The most important thing is to listen and repeat what is heard in the recordings
