On Speaking Terms Luke Owles Fleming, 2024-12-16 Why are kin in societies all over the world divided into joking and avoidance relations Foundational figures in the human sciences from E B Tylor and Alfred Radcliffe Brown to Sigmund Freud and Claude Lévi Strauss have sought to explain why some classes of kin are normatively expected to prank and tease one another while others must studiously avoid each other's presence In this extensively researched comparative study linguistic anthropologist Luke Owles Fleming offers a bold new answer to this problem With a particular focus on avoidance relationships *On Speaking Terms* argues that in order to understand cross cultural convergences in the patterning of kinship keyed compartments we must attend to the sociolinguistic codes through which kinship relationships are enacted Drawing on ethnographic data from more than one hundred different societies the book documents and analyses parallels in the linguistic and non verbal signs through which avoidance relationships are experientially realized With dedicated discussions of Aboriginal Australian mother in law languages name and word tabooing practices pronominal honorification and non verbal strategies of interactional and sensorial avoidance it reveals recurrent sociolinguistic patterns attested in kinship avoidance In demonstrating the vital role of sociolinguistic codes for transforming kinship categories into phenomenologically rich relationships *On Speaking Terms* makes an important contribution to the anthropology of kinship
