 Incorporating a wealth of new material here is the riveting story of the bombing raids that broke the back of Nazi Germany

 of *The Mighty Eighth* **Flak** Edward B. Westermann,2001 Air raid sirens wail searchlight beams flash across the sky and  
 the night is aflame with tracer fire and aerial explosions as Allied bombers and German anti aircraft units duel in the  
 thundering darkness Such cinematic scenes played out with increasing frequency as World War II ground to a close were  
 more than mere stock material for movie melodramas As Edward Westermann reveals they point to a key but largely  
 unappreciated aspect of the German war effort that has yet to get its full due Long the neglected stepchild in studies of  
 World War II air campaigns German flak or anti aircraft units have been frequently dismissed by American British and  
 German historians and by veterans of the European air war as ineffective weapons that wasted valuable materiel and  
 personnel resources desperately needed elsewhere by the Third Reich Westermann emphatically disagrees with that view  
 and makes a convincing case for the significant contributions made by the entire range of German anti aircraft defenses  
 During the Allied air campaigns against the Third Reich well over a million tons of bombs were dropped upon the German  
 homeland killing nearly 300 000 civilians wounding another 780 000 and destroying more than 3 500 000 industrial and  
 residential structures Not surprisingly that aerial Armageddon has inspired countless studies of both the victorious Allied  
 bombing offensive and the ultimately doomed Luftwaffe defense of its own skies By contrast flak units have virtually been  
 ignored despite the fact that they employed more than a million men and women were responsible for more than half of all  
 Allied aircraft losses forced Allied bombers to fly far abovehigh accuracy altitudes and thus allowed Germany to hold out far  
 longer than it might have otherwise Westermann s definitive study sheds new light on every facet of the development and  
 organization of this vital defense arm includi **Germany's Economic Preparations for War** Burton H. Klein,1959 2
