Millspaugh,1999 The trend in programming design is moving towards an object oriented approach This is due to many influences in the evolution of software and hardware As many systems become graphically interfaced and the demand for easier to use software increases the program complexity expands dramatically A solution to the complexity of programs is to develop them using an approach resembling the real life relationship of objects The traditional structured approach to programming is limited through its treatment of data and actions as distinct entities By

dealing with data and instructions as interwoven items the ability to develop reusable code is enhanced Object oriented programming in C requires an understanding of encapsulation of data classes polymorphism overloading and inheritance of classes
