Understanding Faith:

Understanding Faith Julian McClain, 2014-01-13 In understanding faith you will learn what faith really is the parts of faith how to use it learn of the Spirit of religion and who he is and his part in the unholy god head learn where faith comes from where to and how to get more learn that the spirit of religion is at work in your life and in your church know that the problem you have are caused by you not knowing the laws of faith and that most people don't know them as laws you heard things but not as laws learn what believe is what is unbelief is unbelief is not believing it refusing to believe go in to the bible as never before understand what the word GOD means and that you are one and not a little one as that lie goes around to stop you told be the Spirit of religion learn your faith is what will cause you to be healed cause the money you need and yes want will cause it to come learn that because you have faith you don't have to ask the father to do this that is unbelief when you understand what faith and how to use it you will whip the devil ever time you see his run of ever time you look for him just to kick his butt not only in your life but others understand who you are and what you have and what you can do when you understand faith you will enjoy life live healthier be worry free

Understanding Faith Kehinde Okewole, 2021-05-13 Faith is an all important subject that really cannot be over emphasized The aim of this book is to provide the reader an understanding into the foundational truths of this all important kingdom mystery by which we must live However faith like many other important doctrines of scripture has not been properly understood There have been some misconception and misunderstanding about this subject leading many to error and frustration God did not make faith to be complex Sadly the average Christian knows little about the subject of faith which by all counts is a primary and foundational doctrine of scripture Any attempt to define and explain faith by the average Christian will most likely be a hazy and inconclusive analysis of this mystery This ought not to be This book is written to fill in this knowledge gap In addition a major focus of this book is to explain to the reader how to use the faith he has that is because every believer has faith One of the most profound scriptures on the subject of faith is found in Luke 17:5-6 The apostles asked the Lord to increase their faith One would have expected that the Lord would increase their faith as they had asked bearing in mind that more than a few times he had rebuked them for their doubt and unbelief But the Lord answered entirely differently He said if they had faith as little as a mustard seed they will say to the sycamine tree Be uprooted and it will obey By the Lord's response it is apparent then that to Him it definitely was not a matter of faith size first whether they had little or great Faith size was not the His major emphasis here Two points for discussion jumps out from this First the apostles were not remotely aware of what they had that is they were not aware of the kind of faith they had or what it could do its potential and power They didn't know that a mustard seed sized faith can uproot a tree Second they didn't know how to use or operate their faith and it would have done them no good even if they had an increase It's just like someone who doesn't know how to farm or plant No matter how much seed he gets he won't be able to make much of it The disciples were focused on a faith increase But as Jesus implicitly taught

the emphasis must be to know what this faith can do and how this faith can be operated In fact the only way faith can effectively grow is by use In *Understanding Faith* we discuss and dissect the two points expressed here among others We look to know the source power potential and dynamics of this faith that the believer has and then we must learn how to operate and use this faith This is what this book aims to achieve with the reader I pray that as you read the pages of this book your eyes will be open to see deep truths from God s Word which will result in a change in your mindset and an overall and effective transformation of your life in Jesus Christ name Amen **Understanding Faith** Keithron Powell,

Understanding Faith Stephen R.L. Clark,2011-12-12 Militant atheists often mirror the worst kind of ignorance and hostility that they condemn in traditional believers Writing both as a philosopher and an Anglican Christian Professor Clark explores this initial perception considering such topics as the alleged openness of scientists compared with the dogmatism of believers the difficulty of reading scripture outside the community of faith that has selected and elaborated it the problems of moral realism and the problem with abandoning it why Darwinian and neo Darwinian Theory has been unpopular with some believers and what if anything can still be affirmed from it what can be learnt from modern biology especially about our relations with other creatures the nature of God the metaphor of waking up as applied to our hopes of heaven the varieties of possible world orders founded on differing religious schemata including some atheistical ones and the place of religion in the State He concludes appropriately with some remarks about the End Understanding Faith Umoren Anietie

Understanding Faith Christopher Palmer, 2017-12-14 WHAT EXACTLY IS FAITH If you were asked to write a clear and straightforward encyclopedia or dictionary entry for faith could you do it How exactly would you define or explain it And which comes first faith or knowledge are they even connected What exactly is the relationship between the two It is also a fairly common belief in our world today that faith only pertains to religion that it has nothing to do with science and that it is only for things that don't have proof but is this correct For so many years I have been bothered by many of the answers I've heard to questions like these and others that are related Indeed in our day and time it seems that there are many misconceptions about faith and a general lack of good understanding on the subject Some of the issues that abound include things like poorly worded or narrowly defined dictionary entries belief that faith is only a religious thing not knowing what the relationship between faith and knowledge is and then not being able to state which one of these comes first with anything better than a 50/50 guess at a right answer and others In this book I talk about each of these issues and the answers to the questions above as well as many other necessary topics related to the subject of faith I also show the step by step details of how faith works so as to give the reader an understanding of the subject that will allow him or her to competently talk about and apply it in every aspect of their lives If you are looking for a better understanding of faith THIS BOOK IS FOR YOU
