Understanding France In Comparison With Germany An Introduction:

Understanding France in Comparison with Germany Ernst Ulrich Grosse, Heinz-Helmut Lüger, 1994 This introduction is intended to provide an orientation which allows further work and deeper critical examination by the reader. The individual chapters emphasize the parallels and differences between France and Germany for the peculiarities and characteristics of the countries to clearly emerge. Within this comparison however contemporary France remains always at the centre. From case to case historical developments are also considered. Another focal point is the role played by France and Germany in the European integration.

A comparison of the defense acquisition systems of France, Great Britain, Germany and the United States, Political Representation in France and Germany Oscar W. Gabriel, Eric Kerrouche, Suzanne S. Schüttemeyer, 2018-06-28 Notwithstanding its contemporary critics political representation remains at the core of democratic politics. Based on a comparative research project that gathered data from observations, surveys, experiments and expert interviews this book examines the process and the quality of political representation in France and Germany from a dual perspective. First it analyzes MPs behavior during their district activities. Second it investigates the perceptions and evaluations of the represented French and German citizens. In ten chapters different facets of MPs activities as well as citizens attitudes are comparatively investigated. The book is relevant for Politics scholars and practitioners at national parliaments to better understand representative democracies and it may also contribute to improve representation itself.

Citizenship and Nationhood in France and Germany Rogers Brubaker, 2009-07-01 The difference between French and German definitions of citizenship is instructive and for millions of immigrants from North Africa, Turkey and Eastern Europe decisive. Rogers Brubaker shows how this difference between the territorial basis of the French citizenry and the German emphasis on blood descent was shaped and sustained by sharply differing understandings of nationhood rooted in distinctive French and German paths to nation statehood.

Converging Regional Education Policy in France and Germany Claire Dupuy, 2020-03-30 How have regionalization processes across Europe impacted on policy convergence? This book takes as its starting point the curious fact that autonomous regional policymaking may be parallel to regional governments pursuing policy similarity. The author proposes that these observations are paradoxical only if sector specific policy norms are disregarded and when autonomy is considered as the exclusive goal of regional governments. Focusing on common yet under studied regional situations where a sense of cultural or historical distinctiveness is not readily apparent if at all the book argues that in policy sectors where norms of territorial equality have long been dominant regional governments endorse them as a way to secure or expand their policy capacity when the central state or other policy entrepreneurs challenge it. This results in converging policies. A textured comparative account of educational policymaking in German Länder and French conseils régionaux over three decades forms the backbone of this analysis of policymaking in ordinary regions.

The Judicial Work of the Comptroller of the Treasury as Compared with Similar Functions in the

Governments of France and Germany Willard Eugene Hotchkiss, 1911 *European Dimension of Metropolitan Policies* Carola Fricke, 2019-03-23 This book questions how policies for the metropolis become Europeanised The book analyses how spatial concepts and political ideas permeate the European multi level system Through an interpretive comparison of five contexts the book provides an overview of the European orientation tracing two interdependent developments First the book examines references to Europe in national and subnational policies In French and German policies metropolitan regions are increasingly framed as being central not only for inter municipal coordination but also as nodes within the European space Moreover Europeanised metropolitan regions such as Lyon and Stuttgart develop European strategies The second development shows how metropolitan regions appear as actors and issues in the European policy arena contributing to a tentative and implicit metropolitan dimension This multi scalar analysis is of interest for scholars and practitioners specialised in metropolitan regions European urban and regional policies geography and related areas
