## Topic 1.

What is anthropology? For Marvin Harris anthropology is the study of humanity, of the ancient and modern people and their ways of life. But we can define it as the science devoted to study the human (ancient/modern) and their lifestyles.

How can anthropology characteristics can be recognized? We can recognize them by the contribution of other disciplines, by gathering all aspects of a human group and comparing them with those other groups and then seek for an explanation by the characteristics in common and the different ones.

What are the subdisciplines of anthropology? According to Harris there are four which are:

- Physical anthropology: Studies the physical characteristics of humans through fossils.
- Archeology: Study of material remains of past cultures by the reconstruction extinct forms of life.
- Anthropological linguistics: Study of diversity of languages spoken by the human groups and it attempts to reconstruct the history of their origin and the relationship between language and the development of the group that speaks it.
- Cultural anthropology: Known as social anthropology and it refers to the analysis and descriptions of cultures from past and human groups of today.

## Topic 2.

What are the stages recognized in the development of anthropology? There are three according to the taxonomy theory (1998) which are:

- Descriptions of other cultures and reflection on the transformation of their products: Second half of the 16th century.
- Search for scientific laws of evolution of societies and their institutions: Last third of the 19th century and their representatives are Edward Taylor and Lewis Morgan.
- Search for scientific laws of the functioning of societies, from divergent approaches: Last third of 20th century, function of cultures.

Who proposed the first concept of culture? It was Taylor who also established the bases of the study of anthropology.

## Savagery.

Lower savagery: Characterized by the subsistence through the collection of wild food, promiscuity, nomadic horde and common property of resources.

Higher savagery: Utensils for hunting, banned marriage among sibling...

Barbarism: Recognizable by the invention of agriculture and pottery, prohibition of incest...

Higher state of barbarism: Metallurgy was being developed, family relationships were freed by male line and men married several women (polygyny)

Civilization: Writing developed, civil government and monogamous couple were established.

## Theories of anthropology.

What is evolutionist school? It says that societies shall pass through state of development.
